

# HELMET/CASCO/CASQUE

## ENGLISH

The helmet you have just purchased provides protection, whether on or off the road. To insure proper use of this helmet, familiarize yourself with its features, fit and care by carefully reading through this manual before wearing your new helmet.

### THE PROPER FIT

STEP 1: The Helmet fits correctly when the fit pads hold it firmly but comfortably in place. Different thicknesses are provided for that purpose. Pads are held in place by hook and loop style fastener. Try any combination of the different thicknesses provided until the helmet fits firmly and comfortably. All fitting adjustments MUST be made with the helmet in the proper position. Failure to do so will result in a poor fit. This will allow the helmet to move out of position or come off in an accident. For proper position, please refer to Diagram A.
