DISCOVER EVERYTHING YOU CAN CREATE **WITHOUT BREAKING THE BANK**

MELVERN *in Cloud RTF*

Frameless Cabinetry
Get 40-60% more drawer storage than framed cabinetry with easier access to stored items.

Soft-Close Door Hinges and Drawer Glides
No more slammed doors or pinched fingers – experience smooth, whisper-quiet self-closing door mechanisms.

Dovetail Drawers
Interlocking joints allow our drawers to hold together stronger and longer.

Furniture Board
Our cabinets stand the test of time, remaining stable in fluctuating temperatures and humidity.

Hampton Bay Designer Series cabinets are available in **10 style and finish combinations** and **ship in two weeks**, all at a highly competitive price point.

OUR NEW COLLECTION

RENLY Sandstone RTF

Enjoy a refined, contemporary take on timeless Shaker simplicity. Clean lines meet inviting warm tones in this slim Shaker door style. With its balanced neutral color, Renly lends a quiet sophistication to any space.

DISCLAIMERS

Wood

Wood species in all finishes will exhibit color changes when exposed to different types of light and environments over time. Such color changes are expected and are not defects. Graining differences, mineral streaks, and color variations are expected in wood cabinetry. Hampton Bay Designer Series door styles often exhibit these characteristics, and such graining differences, mineral streaks, or color variations are not defects.

Preventing Heat and/or Humidity Damage

Various cooking ovens, ranges, cooktops, cooking pots, toasters, and other small appliances produce high heat and/or humidity. It is very important to make sure these products are positioned so rising heat is not trapped or confined; otherwise, you risk damage to cabinets or moldings that is not covered under the warranty. In addition, if higher temperature settings are used for extended periods of time, the radiant heat may be excessive, and the doors and drawer fronts should be shielded or removed. This is particularly important on Thermofoil doors, which cannot be exposed to extended temperatures beyond 160°F without risking permanent damage. We recommend the use of a heat deflector for Thermofoil kitchen installations.

Finish Names

Cloud RTF, Forest RTF, Driftwood RTF, White RTF, Heron Gray RTF, Storm Gray RTF, Sandstone RTF and Spice are finish names. These names do not represent wood species; they are simply names intended to identify a particular finish.

Important Information

The photography and color samples pictured in this book have been reproduced as accurately as printing technologies permit and are for general representation only. To ensure the highest satisfaction, we strongly recommend that you view an actual product sample on our in-store display prior to ordering cabinetry.
