IMPORTANT INSTRUCTIONS

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock and injury to persons, including the following:

Read this manual before attempting to install or use the electric fireplace. Always comply with the warnings and safety instructions contained in this manual to prevent personal injury or property damage.

WARNING:

- This appliance is hot when in use. To avoid burns, do not let skin touch hot surfaces. Keep combustible materials, such as furniture, pillows, bedding, papers, clothes and curtains at least 3 ft. from the front of this appliance and keep away from sides and rear.
- Extreme caution is necessary when any heater is used by, or near, children or invalids, and whenever the heater is left operating and unattended.
- Do not operate any heater with a damaged cord or plug, after the appliance malfunctions, or if it has been dropped or damaged in any manner. Disconnect from power and call Technical Service or have it inspected by qualified electrician.
- To disconnect the fireplace, turn the controls off, then remove the plug from the outlet.
- Do not use outdoors.
- Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the fireplace.
- All electrical heaters have hot and arcing or sparking parts inside. Do not use it in areas where gasoline, paint or flammable liquids are used or stored.
- Use this appliance only as described in the manual. Any other use not recommended by the manufacturer may cause fire, electric shock or injury to persons.

SAVE THESE INSTRUCTIONS

FCC COMPLIANCE

This equipment has been tested and found to comply with the limits for Class B digital devices, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try and correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and the receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:
1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Modifications not approved by the party responsible for compliance could void user's authority to operate the equipment. This Class B digital apparatus complies with Canadian ICES-003.

SAFETY INFORMATION

CAUTION

- If possible, always unplug this appliance when not in use.
- Any repairs to this fireplace should be carried out by a qualified service person.
- Under no circumstances should this fireplace be modified. Parts having to be removed for servicing must be replaced prior to operating this fireplace again.
- This heater is not intended for use in bathrooms, laundry areas and similar indoor locations. Never place heater where it may fall into a bathtub or other water container.
- Always connect to properly grounded outlets.
- Do not run cord under carpeting. Do not cover cord with throw rugs, runners or the like. Arrange cord away from traffic areas and where it will not be tripped over.
- Always plug heaters directly into a wall outlet/receptacle. Never use with an extension cord or relocatable power tap (outlet/power strip).
- To prevent a possible fire, do not block air intakes or exhaust in any manner. Do not use on soft surfaces, like bed, where opening may become blocked.

WARNING:

There is a resettable cutout switch inside the heater. Should the heater overheat, the cutout will turn the fireplace heater off. To reset the cutout switch unplug the unit and wait 5 minutes before plugging it back in.

CAUTION: If you need to continuously reset the cutout, unplug the unit and call Technical Support.

Remote control contains small batteries. Keep away from children. If swallowed, seek medical attention immediately.

Grounding Instructions

This product is equipped with a cord having an equipment-grounding conductor and a grounding plug. The plug must be plugged into an appropriate outlet that is properly installed and grounded in accordance with all local codes and ordinances.

AVERTISSEMENT :

- Cet appareil devient chaud lorsqu'il est en marche. Pour éviter les brûlures, ne pas toucher les surfaces chaudes. Garder à au moins 3 pieds (0,9 mètre) du devant, des côtés et de l'arrière de l'appareil tout matériau combustible : meubles, oreillers, literie, papier, vêtements et rideaux.
- Ce chauffage est pour usage à 120 volts. Le cordon a une fiche comme à droite.
- Un circuit de 15 Amp, 120 Volt est nécessaire. Un circuit dédié sera nécessaire mais pas essentiel dans tous les cas. Le circuit dédié sera déclenché si le fusible est détruit.
- Ne pas servir d'appareil de chauffage si la fiche ou le cordon sont endommagés, après un fonctionnement défectueux de l'appareil, ou si l'appareil est tombé ou est endommagé de quelque façon que ce soit. Débrancher l'appareil et appeler le service technique, ou le faire inspecter par un électricien qualifié.
- Pour débrancher le foyer, l'éteindre, puis retirer la fiche de la prise de courant.
- Ne pas utiliser à l'extérieur.
- Ne pas introduire ou laisser entrer de corps étrangers dans la prise d'air de ventilation ou la bouche de sortie d'air, car cela peut occasionner des décharges électriques, provoquer un incendie ou endommager le foyer.
- Tous les appareils de chauffage électriques contiennent des pièces qui deviennent chaudes et qui produisent des arcs électriques ou des étincelles. Ne pas faire fonctionner l'appareil dans des endroits ou de l'essence, de la peinture ou d'autres produits inflammables sont utilisés ou entreposés.
- Un circuit de 15 ampères/120 volts est requis. Un circuit dédié sera préférable, mais pas essentiel dans tous les cas. Le circuit dédié sera requis si, après l'installation, le disjoncteur se déclenche et si le fusible saute régulièrement pendant le fonctionnement de l'appareil de chauffage. L'ajout d'appareils sur le même circuit risque d'excéder la puissance nominale du disjoncteur.
- Pour débrancher le calentador de aire, apague los controles, y luego quite el enchufe del tomacorriente.
- No utilizar este aparato en exteriores.
- No introducir ni dejar entrar objetos extraños en las aberturas de ventilación o escape, ya que esto podría provocar una descarga eléctrica o un incendio, o bien dañar el calentador de aire.
- Todos los calentadores eléctricos contienen piezas calientes que provocan chispas o arcos eléctricos. No lo use en áreas donde almacene o utilice gasolina, pintura o líquidos inflamables.
- Se servir de este aparato únicamente de la forma descrita en el manual. Toute autre utilisation non recommandée par le fabricant peut causer un incendie, des décharges électriques ou des blessures.

CAUTION

Clean the metal trim using a water-dampened soft, clean cloth. DO NOT use brass polish or household cleaners as these products will damage the metal trim.

The motors used on the fan and the flame generator assembly are pre-lubricated for extended bearing life and require no further lubrication. However, periodic cleaning/vacuuming of the fan/heater and air intake/output vents is recommended. The heater should be cleaned and inspected regularly, depending on conditions, and at least yearly intervals.

WARNING:

Any electrical repairs of this unit should be carried out by a licensed electrician in accordance with national and local codes.

WARNING:

Disconnect power by unplugging the power and allowing heater to cool before attempting any maintenance or cleaning to reduce the risk of fire, electric shock, or injury.

Note:

When the heater is not in use, the heater should be stored in a dry location, away from possible damage. The power cord should be stored properly to avoid contact with hot or sharp objects.

Remote Control

The battery compartment is located on the back end of the remote control.

- Press and slide the battery cover open.
- Insert two 1.5V (AAA) batteries (included) ensuring they are installed correctly with regard to the polarities (+ and -) marked on the inside of the battery compartment.
- Replace the battery cover.

Note: The batteries should be removed if the product is to be left unused for a long time.
