Safety Rules

WARNING: BE SURE THE ELECTRICITY TO THE WIRES YOU ARE WORKING ON IS SHUT OFF; EITHER THE FUSE IS REMOVED OR THE CIRCUIT BREAKER IS TURNED OFF. TURNING THE POWER OFF USING THE LIGHT SWITCH IS NOT SUFFICIENT TO PREVENT ELECTRICAL SHOCK.

NOTE: The important safeguards and instructions appearing in this manual are not meant to cover all possible conditions or situations that may occur. It must be understood that common sense, caution, and care, are factors which cannot be built into any product. These factors must be supplied by the person(s) installing this unit.

READ & SAVE THESE INSTRUCTIONS

CAUTION: Before assembling the lighting fixture, refer to the section titled Wiring Connections. If you feel you do not have enough electrical wiring experience, either refer to a do-it-yourself wiring handbook or have your lighting fixture installed by a qualified, licensed electrician.

UNPACK THE PACKAGE

Check the contents to be sure everything is included.

INSTALLATION & OPERATION INSTRUCTIONS GENERAL

Before starting the installation, disconnect the power by turning off the circuit breaker or by removing the appropriate fuse at the fuse box. Turning the power off using the light switch is not sufficient to prevent electrical shock. All electrical connections must be in accordance with local and National Electrical Code (NEC) standards. If you are unfamiliar with proper electrical wiring connections, obtain the services of a qualified electrician.

Remove the fixture and the mounting packages from the box and make sure that no parts are missing by referencing the illustrations on the installation instructions.

Be sure to read these installation instructions and review the diagrams thoroughly before installation.

LIGHT BULBS REQUIRED

This fixture uses G9 bulb base, LED bulbs required, Max 7W. Fully dimmable when used with dimmable bulbs and a compatible dimmer switch (if applicable).

BULBS ARE NOT INCLUDED IN THIS ITEM. Please purchase the right bulbs you need.

Mounting & Wiring

NOTE: Please test the fixture before installation to ensure it's working properly.

1. Turn off power at circuit box to avoid possible electric shock.
2. Place mounting bracket ② on wall and mark out the points where you would like to drill holes.
3. Drill holes on the wall and insert plastic anchors ①.
4. Attach the mounting bracket ② to the plastic anchors ① with wood screws ③ provided.
5. Connect fixture wires to house wires, black/brown fixture wire to live wire, white/blue fixture wire to neutral wire, yellow & green wire to your ground wire (optional).
6. Attach fixture ⑤ to mounting bracket ② with screw ④ provided.
7. Install bulbs (G9 base, Max 7W each, LED required).
8. Assemble the crystal rods (see page 3).

NOTE: Fixture may not look exactly as shown in diagram.

Assembly Diagram

Clean and Care

To clean, wipe fixture with soft cloth. Spray from chemical cleaners can discolor the finish of fixture. Do not use scouring pads, powders, steel wool or abrasive paper to clean this fixture.

Ordering Parts

Keep this manual for future reference, and in case replacement parts are needed. Available parts can be ordered from place of purchase. Use exact wording from diagrams when ordering parts.

Contact Information

1. Screen shot of your order page, including product picture, name and order ID number.
2. Problem details with pictures / short video if possible.
