

# 1000+™ Stain Remover

## TECHNICAL DATA SHEET

### PRODUCT OVERVIEW

**1000+™ Stain Remover** is a multi-purpose cleaning agent formulated for exceptional versatility across a wide range of stains, oil conditions, fabrics and surfaces. It can be used on any surface that normally tolerates water.

**1000+™ Stain Remover** contains special agents that target oil and grease removal.

**1000+™ Stain Remover** is 61% Bio-based, biodegradable, and phosphate free. It has been certified by the USDA (US Department of Agriculture) as BioBased.

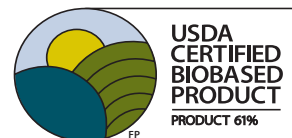

**1000+™ Stain Remover** contains no bleach or bleaching agents.

**1000+™ Stain Remover** meets the CARB 17 CCR § 94509 VOC Standard for a general purpose cleaner.

**1000+™ Stain Remover** is not flammable and will not sustain combustion as per ASTM D 4206.

### PRODUCT SPECIFICATIONS

Appearance:	Clear, Colourless - Amber
Odour:	Slight banana scent
Specific Gravity:	1.01 g/ml
pH:	7.0 ± 1.0

### PRODUCT USAGE

1000+™ Stain Remover is a reach-for-it-first solution that spans a wide range of clean-up situations - from home improvement messes to degreasing and stain removal of all sorts from both hard surfaces (such as floors, walls, decks) and soft surfaces (such as carpets, upholstery and fabric). It converts oil-based messes into a simple clean-up with water. Contractors and trades have discovered 1000+ to be an effective hand-cleaner with no harsh effects to skin when removing grime like roof sealant, contractor's glue, caulking and tree sap.

Despite these capabilities, 1000+ Stain Remover is sufficiently gentle to meet the needs of householders where it can be used for family messes such as pet stains, carpet cleaning, food and beverage stains, on outdoor clean-up (such as house siding, hot tubs, barbeque grills) as well as on car and vehicle detailing. 1000+ contains no bleach, enzymes or whitening agents making it ideal for fabric care.

**STAIN REMOVAL:** Apply a SMALL amount of 1000+ Stain Remover to stain. Allow it to soak in. Rub with wet cloth, scouring sponge or fingers. Blot to remove excess product. Add water and continue rubbing. Repeat as necessary. Rinse well with water.

**MULTI-PURPOSE CLEANING:** Mix 1 part 1000+ with 10 parts water in a spray bottle or pail and use to clean or wipe.

**LAUNDRY USES:** Use 1000+ to pre-treat stains or put a squirt in your load as a laundry booster. For tougher stains, soak in 1000+ (full strength or diluted) for several hours or even overnight.

The product is user-friendly and flexibly. It lends itself to experimentation. As with any other product, rinse well after use.

### SHELF LIFE & STORAGE

When stored in unopened containers the product has a shelf life of 5 years. Store at temperatures between 10°C (50 F) - 40°C (104 F)

### PACKAGING

125 mL / 4oz	HDPE Bottle
909 mL / 30.7 oz	PET Bottle
4L / 135 oz	HDPE Bottle
20L / 5 gallon	Standard Cube HDPE
