Users Manual

Window Kit for Air Conditioners

- 1. Point M, shown on picture 1 on the following page marks the middle of the window kit.
- 2. Mark the middle of the window frame and the casement (Picture 2 shows an open window, Picture 3 shows a sloped window and Picture 4 shows a sky light).
- 3. Glue the nylon fastener to the front face of the casement or to the inside surface of the casement (where the window handle is attached).
- 4. First fix the A side, then the B side, starting from the middle and working to the left and right.
- 5. IMPORTANT! When fixing, point A must be exactly opposite point B.
- 6. When closing the window, make sure that the seal is not stuck between the casement and the window frame.
- 7. Open the zipper preferably where "S" is marked and attach the air exhaust hose.

WARRANTY TERMS AND CONDITIONS

This product is guaranteed for a fixed period of time with the distributor from the date of purchase against any failure resulting from a manufacturing or material defect. This warranty does not cover defects or damage resulting from improper installation, improper use or abnormal wear and tear of the product.

The device must be returned in its original packaging and with the receipt, subject to proper handling. Therefore, observe the operating instructions and safety instructions given above. In addition, we cannot guarantee your product if you or a third party have made any modifications or repairs.
