STEP 1

Remove the glass and set aside vertically in a safe place until the table has been completely assembled. Turn the table rim (A) upside down. Attach 4 table legs (B) to the table rim (A) by inserting bolts (E) with metal washers (F) through the pre-drilled holes in the table rim and legs. Do not tighten the bolts.

STEP 2

Attach the leg connector bracket (C) to the table legs (B) by inserting bolts (E) with metal washers (F) through the pre-drilled holes in the leg connector bracket and legs. Tighten all bolts completely and cover them with plastic bolt caps (G). Important note: Each bolt should be tightened a few revolutions at a time, alternating between bolts in a cross corner (X) pattern. This will ensure your table is level by placing equal pressure on all bolt joints. Do not over tighten.

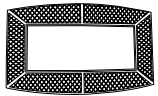

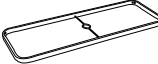

STEP 3

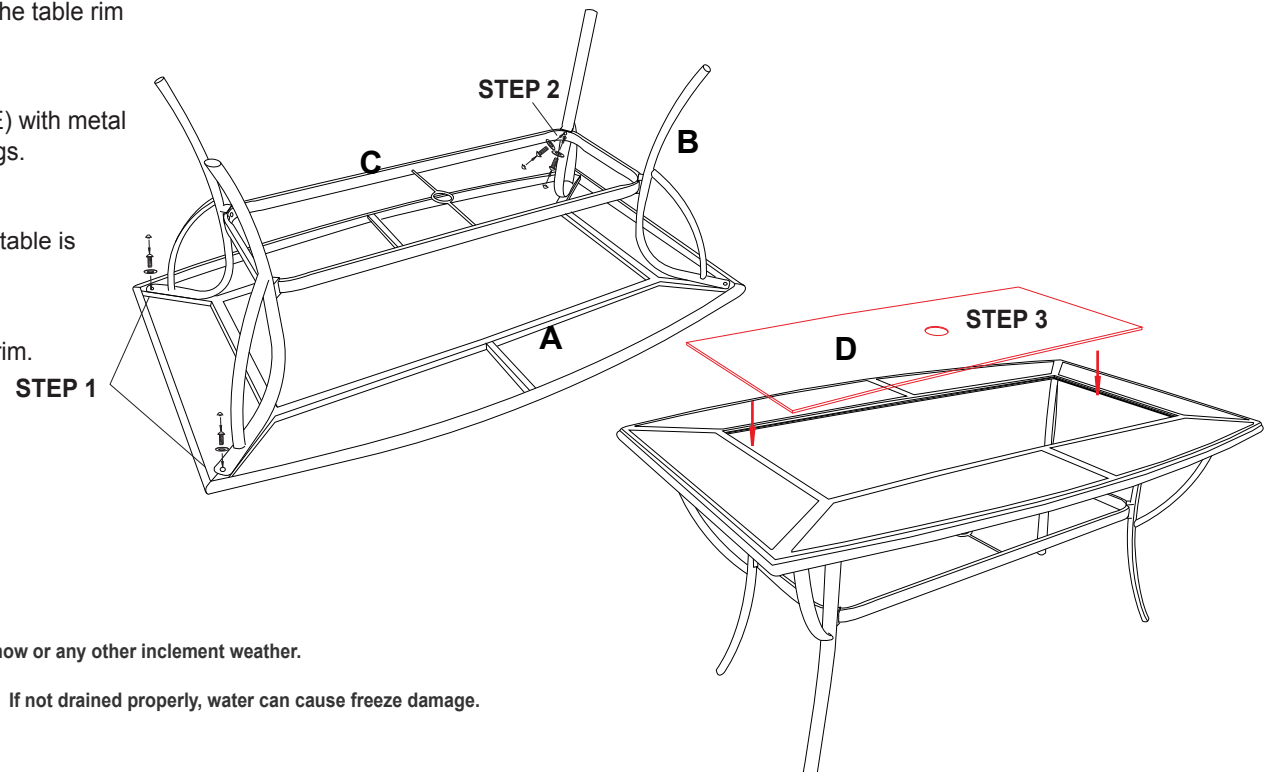

Turn the table in the upright position. Carefully place glass (D) into the table rim. Keep touch-up paint (I) for future use for both your table and chairs. Your table is now ready for use.

IMPORTANT:

To avoid damage to your table:

- An umbrella base must be used at all times.
- Make sure the plastic umbrella safety ring is installed in the center of the table before you insert the umbrella pole through the table.
- Remove the umbrella from the table when not in use or in the event of wind, rain, hail, sleet, snow or any other inclement weather.
- In storing patio furniture, do not stack anything on glass, stone, or marble tabletops.
- Before storing, drain all water that may have accumulated in or around patio furniture frames. If not drained properly, water can cause freeze damage.
- Cover furniture with outdoor furniture covers when not in use.
- For safety reasons, do not sit or stand on the table.
