

INSTALLATION GUIDE

2 WAY Y VALVE HOSE SPLITTER

- *Attach the Y Valve Hose Splitter to an external water supply.*
- *Hand tightend splitter to water supply.*
- *Connect hoses or other accessories to splitter.*
- *Turn off the water after each use.*
- *During Winter Months: We suggest to use a Freeze Miser for superior freeze protection for your outdoor water supply.*

Expert Tips – To Avoid leaks!

- *Add rubber washer inside the screw-thread connector to avoid leaking. You can add one or multiple rubber pieces depending on the situation.*
- *If not using keep the bonus washer in a safe place so if hose washer becomes worn, damaged or lost it may be replaced.*
