

### 3 EASY STEPS

FOLLOW THESE INSTRUCTIONS TO WOW YOUR NEIGHBORS  
EN TRES PASOS SENCILLOS  
Siga estas instrucciones para impresionar a sus vecinos

**STEP 1 PREPARE**

**FOR BARE SPOTS/NEW LAWNS:** Remove debris, then rake the soil to loosen and smooth the top layer.  
**PARA ZONAS SIN GRASO O CERVO NUEVO:** Quite los desechos y luego rasque el suelo para aflojar y suavizar la capa superior.

**FOR OVERSEEDING/THIN AREAS:** Start by mowing existing grass as short as possible followed by removing debris. Then rake the soil to loosen and smooth the top layer.  
**PARA RESEMENAR O ZONAS DELGADAS:** Comience cortando el césped existente lo más corto posible, elimine los desechos. Luego, rasque el suelo para aflojar y suavizar la capa superior.

**APPLY**  
Spread the seed evenly using a drop, rotary or hand-held spreader according to the recommended spreader settings listed. Rake gently to work your seed & fertilizer into the soil.  
**Aplicar:** Distribuya las semillas de manera uniforme con un esparcedor de caída, rotatorio manual, o de mano. Rasque suavemente para incorporar las semillas y el fertilizante a la superficie del suelo.

**STEP 2 WATER**

Keep the soil moist by watering daily as needed until grass sprouts and reaches about 1/4" tall.  
**Regar:** Mantenga el suelo húmedo al regar lo que sea necesario para que el suelo permanezca húmedo y alcance un espesor de 2 pulgadas (5,08 cm) de alto.

**RECOMMENDED SPREADER SETTINGS**

SPREADER TYPE	OVERSEEDING/ THIN AREAS	BARE SPOTS/ NEW LAWNS
Expert Garden® Push Broadcast Spreader	2.25	4.25*
Control Turf Walker® "Edge-on" Wheel Broadcast Spreader	2.75	4"
Scout® Walk-Behind Broadcast Spreader	3	5"
Pro-Spread® 2X Broadcast Spreader	2	3

\*Up to 2x

**ADDITIONAL CARE TIPS**

- Mow lawns when grass height reaches 2" tall.
- Avoid removing more than 1/3 of the total grass blade length in any single mowing.
- Hot summer can be stressful on your lawn. Increase the mowing height during hot and dry periods to reduce stress on lawn.

**MOST IMPORTANTLY -** Don't kill the grass before it starts by using weed control grass call if grass emerges on your lawn until your grass has reached its full mowing height of 2"

\*This is a Bermuda grass blend. Seedlings will grow cover up to 90 days after planting (in most areas in zones 6, 8, 9, 10, and 11).  
Notes: This color green as applied to grass seed is engineered to match the color requirements of the U.S. Forest and Wildlife Office by Pennington Seed, Inc. Pennington uses the safest colorant available.  
Warning: Treated Seed. Do not use for food, feed, or all purposes. Store away from food and children. Avoid contact with children if available. In addition, avoid contact with children and pets. This coating prevents contact with the seed and helps reduce the risk of disease that can harm them.  
Do not apply near water, storm drains, or drainage ditches. Do not apply to areas where water is expected. Apply this coating to the seed and mix thoroughly. Do not apply to areas where the seed will be in contact with water. Check with your local cooperative extension agency for management practices for your area. ## PENNINGTON 2X RESULTS.\*

Growing a lawn from ordinary Bermudagrass seed can require a lot of patience. At Pennington, we understand you want beauty and results without the wait.

Thanks to innovation and seed technology, Pennington® Smart Seed® Bermudagrass + Fertilizer will give you twice the results and coverage\* compared to Bermudagrass alone. The Smart Seed® mix includes a temporary, cool-season companion grass that provides stability to the soil and early color, then fades away as the heat arrives. You also get earlier germination and faster establishment – compared to Bermudagrass alone.

## COMBINATION SEED + FERTILIZER
