

MOSAIC GLASS BIRDBATH

Read this manual carefully before use and save it for future reference.

Select a smooth, level surface to place the birdbath.

No.	PART	QTY.
A	Mosaic Glass Bowl	1
B	Stand	1

INSTALLATION

1. Unfold Stand (B) and place it on a level surface.
2. Gently place Mosaic Glass Bowl (A) onto Stand (B).
3. Fill the bowl with clean water.

CHOOSING A LOCATION

A shaded location is recommended for this mosaic glass bird bath. Mosaic glass can have a mirror-like, reflective effect when placed in full sunlight, which can cast strong light reflections. Strong reflections of light may frighten birds, which makes selecting a location with limited sun exposure ideal.

CLEANING

Cleaning the birdbath 1-2 times per week is recommended.

1. Empty the old, stagnant water.
2. Wash the glass bowl using warm water and a soft cloth.
3. Rinse the glass bowl thoroughly with running water.
4. Allow the glass bowl to dry completely before refilling with fresh, clean water.

! SAFETY STATEMENTS & WARNINGS !

- Do not install the stand on loose soil or uneven surfaces as this could cause it to tip over.
- Inspect the stand frequently to ensure the wing nuts and bolt remain installed.
- Do not use a pressure washer, harsh chemicals, or abrasive materials to clean the birdbath.
- During freezing weather, empty the birdbath and store it indoors; allowing ice to form in the glass bowl may cause it to crack or break.
- Remove your glass bowl from the stand during high-wind conditions and store the entire unit indoors.

Any modification to the product or failure to follow recommended care will void the product warranty.
