**TABLE OF CONTENTS**

**CRANE & SUSTAINABILITY**

Crane USA is dedicated to your environment both inside and outside your home. We know if cleaned and maintained properly, our products last for years helping to reduce unnecessary use of resources and emissions making new products.

The Crane manual you are holding is from recycled materials with no added finishes or harmful dyes. If the purifier should no longer operate, please be sure to dispose of it in an environmentally friendly way by taking it to a public collection point.

# PLEASE DO NOT PLACE BROKEN PURIFIERS WITH YOUR REGULAR HOUSEHOLD WASTE.

## IMPORTANT SAFETY INSTRUCTIONS

**WARNING!** READ AND SAVE THESE INSTRUCTIONS. Failure to follow all of the instructions listed below may result in electric shock, fire and/or serious personal injury.

1. To avoid fire and shock hazard, plug the appliance directly into a 120V AC electrical outlet.
2. Never operate the unit with a damaged cord or plug.
3. Keep cord out of heavy traffic areas. To avoid fire hazard, NEVER put the cord under rugs, or near heat registers, radiators, stoves, or heaters.
4. Always place the air purifier where it is not easily knocked over by persons in household.
5. Never touch the air purifier with wet hands. **ALWAYS plug and unplug unit with dry hands.**
6. Do not operate the product in any greasy environment such as a kitchen. This product is not intended to filter oil or grease from air.
7. Do not use air purifier in bathrooms or other humid environments, near fireplaces or in areas where flammable or combustible vapors or products may exist.
8. Always unplug the power cord from electrical outlet when the air purifier is not in use, before cleaning, inserting or removing parts or before moving to another location.
9. NEVER run air purifier until it is fully assembled.
10. NEVER drop or insert any object into any openings.
11. Use appliance only for the intended household use as described in this manual. Do not use outdoors.
12. Never use the power cord to pick up, carry, drag, pull, or lift the air purifier. Do not pull the cord against or around sharp corners or edges. This could result in injury to the user and/or damage the cord.
13. Never pull on the cord itself to unplug from power outlet.
14. ALWAYS turn unit off before unplugging.
15. Never block the air openings, or place on soft surface, such as a bed or sofa, as this could cause the unit to tip over thus blocking the air intake opening.
16. DO NOT place anything on top of unit.
17. NEVER use detergents, gasoline, glass cleaner, paint thinner or other household solvents to clean any part of the unit.
18. Always place the unit on a smooth, flat, level surface, and away from direct sunlight. Keep the cord away from heated surfaces and areas where it could be walked on or tripped over. Unplug the unit when not in use and whenever you clean or move the unit.

# SAVE THESE INSTRUCTIONS!

## GENERAL SAFETY INSTRUCTIONS

**WARNING!** Read and understand all instructions. Failure to follow all instructions listed below may result in electric shock, fire or serious personal injury. The warnings, cautions, and instructions discussed in this instruction manual cannot cover all possible conditions and situations that may occur. It must be understood by the user that common sense and caution are a factor which cannot be built into this product, but must be supplied by the user.

## THIS AIR PURIFIER IS NOT A TOY!

**Do not let your child play with this product.** Serious injury and electrocution might be possible. This air purifier has to be operated by an adult only. Children should be supervised to ensure that they do not play with the air purifier.

## SAVE ALL INSTRUCTIONS!

**CAUTION:** A short Power Supply Cord is provided to reduce the risk of personal injury resulting from becoming entangled in or tripping over a longer cord. Extension cords are available from local hardware stores and may be used if care is exercised in their use. If an extension cord is required, special care and caution is necessary. Also the extension cord must be (1) marked with an electrical rating of 125 V and at least 13 A., 1625 W., and (2) the cord must be arranged so that it will not drape over the countertop or tabletop where it can be pulled on by children or accidentally tripped over.

### ELECTRIC POWER

If the electric circuit is overloaded by other appliances, your purifier and/or appliances may not operate properly. The purifier should be operated on a separate electrical circuit from other operating appliances.

### POLARIZED PLUG

This purifier has a polarized plug (one blade is wider than the other). As a safety feature to reduce the risk of electrical shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

### SAFETY WARNING

Although your purifier is easy to operate, for your safety, the below warnings must be followed:

1. Do not place the purifier near a heat source.
2. Never leave the purifier unattended while connected to the electrical outlet.
3. To avoid any accidents, never cover the air grill when the purifier is in operation.
4. Use the purifier on a stable surface away from water.
5. Do not unplug from the wall socket by pulling on the supply cord.
6. The purifier must be unplugged:
  - A. Before any cleaning or maintenance is performed.
  - B. After each use.
  - C. If it appears to be faulty.

**THIS PRODUCT IS INTENDED FOR HOUSEHOLD USE ONLY.**

## AIR PURIFIER FILTERS:

### **Level 1: Washable Particle Filter**

The purpose of this filter is to capture initial dust and allergen particles. It helps extend the life of the HEPA filter by removing large particles before they can get to the HEPA filter. You will find visible dust, hair, and lint in the particle filter. By keeping the particle filter clean, you can dramatically extend the life of your HEPA filter and improve the overall efficiency of your air purifier.

*NOTE: See Maintenance instruction for the Particle Filter.*

### **Level 2: HEPA Filter**

HEPA stands for High Efficiency Particulate Air. The inlet grill of your air purifier draws in dirty air. Crane's air purifier true HEPA filter removes at least 99.97% of all particles as small as 0.3 microns. Microns are used to measure the size of these microscopic airborne particles.

Allergens such as pollen, smoke, animal dander, mold spores, and dust get trapped in the HEPA filter.

*NOTE: See Maintenance instruction for the Particle Filter.*

## **BEFORE USE**

1. Select a firm, level & flat surface to place the purifier. For proper air flow, locate the unit at least 3 feet from any wall or furniture.
2. Do not place the purifier in close proximity to electronic devices that are sensitive to electrical fields.
3. Do not place the unit on metal shelving. Air purifier may be placed on floor, nightstand, table or desk. Make sure the outlet grill faces away from the nearest wall or furniture.
4. Make sure the intake and outlet grills are not blocked
5. Plug into grounded 120V outlet. (*See Safety Instructions*)

# OPERATION & USE

## OPERATING INSTRUCTIONS:

1. Press Power Button to turn on and off the unit.
2. Press Fan Button to select Low, Medium, High or Max. Press once for Low, press twice for Medium, press three times for High and press four times for Max. All lights will illuminate on the Max setting.
3. Press Sleep Button to control Sleep Mode. Press once to turn on Sleep Mode. Press two times to de-activate Sleep Mode. In Sleep Mode the light blinks 10 times and all indicator lights will go off. When the purifier goes into sleep mode the fan setting automatically defaults to Low. To de-activate the sleep mode press any button on the control panel.

**NOTE:** Once item is unplugged the sleep mode needs to be reset

4. Press the Timer Button to operate in intervals of 2 hours, 4 hours and 8 hours. The unit will turn off when scheduled operating time has elapsed. To go back to a continuous run time, press the timer button until there are no more indicator lights lit up.

## **IMPORTANT NOTE:**

**When the unit is not in use, please turn the unit off and unplug.**

## REPLACING THE HEPA FILTER

When the Filter Reset light blinks continuously, it is an indication to replace the filter. Once you have replaced the filter, hold the POWER button down for 5 seconds to reset the system. On average, the HEPA Filter needs to be replaced every 3-6 months. Filter life will depend on air quality and usage.

1. ALWAYS turn off and unplug the air purifier from power outlet before replacing the filter.
2. Turn the unit upside down, unscrew the base cover. Unwrap the washable particle filter from the HEPA filter
3. Discard the old HEPA filter. DO NOT attempt to wash the HEPA filter. Wrap the washable particle filter on the new HEPA filter. Insert the filters into the unit.
4. Once you have replaced the filter, screw the base cover back on and turn the unit right side up. Hold the POWER button down for 5 seconds to reset the system.

**NOTE:** Replacement HEPA Filter **#HS-1944** can be purchased online at **www.crane-usa.com**.

# **MAINTENANCE**

**CAUTION:** Always be sure the purifier is unplugged and switched off before cleaning, removing filters or attempting to store the item. **NEVER PLUG OR UNPLUG THE PURIFIER WITH WET HANDS.**

## **CLEANING THE WASHABLE PARTICLE FILTER**

1. Gently remove the particle filter by unwrapping from the HEPA filter.
2. Rinse the particle filter by hand using only warm water.  
**DO NOT** place in dishwasher.  
**DO NOT** use hard solvents or detergents.
3. Particle filter **MUST** be thoroughly dry before wrapping it around the HEPA filter.

**Note: HEPA Filter should be cleaned once a month by a vacuum cleaner**

## **CLEANING THE AIR PURIFIER**

**NOTE:** No part of the air purifier should be placed in the dishwasher.

1. Always unplug the unit before cleaning.
2. Once unplugged, the exterior of the unit may be cleaned by wiping with a lightly damp cloth.  
**DO NOT** ALLOW WATER TO GET INTO THE INTAKE AND OUTLET GRILLS.  
**DO NOT** USE GASOLINE, POLISH OR ANY CHEMICAL SOLUTION TO CLEAN AIR PURIFIER.
3. The intake grill and outlet grill can be cleaned of dust with a small soft brush.
4. If you wish to lightly clean the inside of the air purifier, please remove filters and **ONLY** use a dry, soft cloth to lightly wipe down.

## **STORING YOUR PURIFIER**

Store the purifier in a dry location. Do not place heavy items on top of the purifier during storage as this may result in possible damage of the appliance. Store the cord in a clean, dry location away from metal objects. Always check the plug before use to assure metal items have not become attached.

## TROUBLESHOOTING

**DO NOT attempt to repair the air purifier yourself.**

If the air purifier continues to not operate, please contact Crane Customer Care.

| Problem                                      | Solution   |
|--|--|
| <b>If the air purifier does not operate:</b> | <ul style="list-style-type: none"><li>▪ Make sure the filter is inserted and base cover is screwed into place. There is an automatic safety shut off switch if the filter is not inserted.</li><li>▪ Make sure the air purifier is at LOW, MED or HIGH.</li><li>▪ Make sure the power cord is plugged into a working power outlet.</li><li>▪ If the above solutions do not work, please contact Crane Customer Care.</li></ul> |
| <b>If the air flow is reduced</b>            | <ul style="list-style-type: none"><li>▪ Make sure that the intake and outlet grills are not blocked and are free of debris.</li><li>▪ Make sure the washable filter has been cleaned and check your HEPA filter, it may need to be replaced.</li><li>▪ If the above solutions do not work, please contact Crane Customer Care</li></ul>  |

**NOTE: Spare Parts can be purchased online at [www.crane-usa.com](http://www.crane-usa.com)**

# CRANE WARRANTY

For more information regarding the warranty policy,  
please visit our website: [www.crane-usa.com/customer-service](http://www.crane-usa.com/customer-service)

## LIMITED WARRANTY

Thank you for purchasing a Crane product which has been tested to meet our stringent quality standards. This product is warranted to be free from manufacturing defects under normal use and conditions for 1 year.

**PLEASE CONTACT US BEFORE RETURNING THIS PRODUCT TO THE STORE.  
CALL CRANE CUSTOMER CARE FOR PROBLEMS AND QUESTIONS. WE CAN HELP.**

### WARRANTY REQUIRES A DATED PROOF OF PURCHASE.

This warranty is void if the defect is due to accidental damage, misuse, abuse, neglect, improper repair or alteration by unauthorized persons, or a failure to follow operating instructions provided with the product. This warranty does not apply to normal wear and tear or commercial use.

In no event shall liability exceed the purchase price paid by the purchaser of the product. Under no circumstances shall there be liability for any loss – direct, indirect or incidental – or consequential damage arising out of, or in connection with the use of this product.

**This warranty is valid only in the 48 contiguous states plus the District of Columbia** and excludes Puerto Rico and the Virgin Islands. This warranty is effective only if the product is purchased and operated in the United States of America.

Any instructions or warranty included in this manual may be subject to change without notice. For the most up-to-date instructions and warranty information, please contact us or visit our website.

**TO RECEIVE WARRANTY INSTRUCTIONS AND RETURN AUTHORIZATION,  
PLEASE CALL OR EMAIL CRANE CUSTOMER CARE.**
