

# LASH<sup>®</sup>

LEVEL • ALIGN • SPACE • HOLD

## THE ORIGINAL Tile Leveling & Spacing System

**LEVEL:** Anchor adjusts to the tiles so they remain level throughout the installation

**ALIGN:** Designed to address variations in tile thickness

**SPACE:** Produces a 1/16" wide grout joint between tiles

**HOLD:** Holds tiles firmly in place to ensure a lippage-free surface

### Patented 2-part System

### For Large Format Floor Tiles

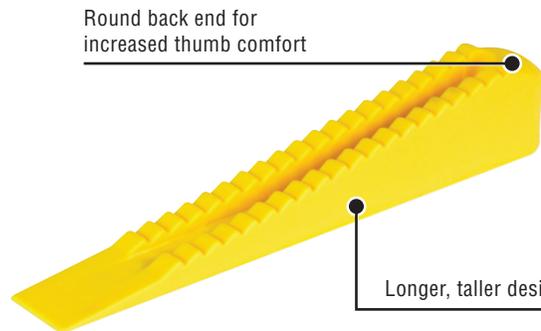

#### CLIPS

Easy Snap-Off design

Hole on both sides allows mortar to disperse evenly to eliminate potential voids

#### WEDGES

Round back end for increased thumb comfort

Longer, taller design

Designed for quick installation, the LASH<sup>®</sup> Tile Leveling System (sold separately) reduces costly call backs by ensuring that the finished floor surface is lippage-free. It is the perfect system to use with large-format rectified porcelain, thin porcelain tile, marble and stone where narrow grout joints are required, or with tiles of different thickness. This fast, simple system is the most cost effective installation method on the market to eliminate lippage.

The LASH System provides narrow 1/16" grout lines. For grout joints up to 1/4", traditional spacers can be used.

Also available in the Flat LASH design for use on any size Floor and Wall tiles.

U.S. Patent No. 7,992,354

**Easy to install and remove!**

Watch a demonstration video at: [www.lashspacer.com](http://www.lashspacer.com)

Slide two clips under the tile and into the mortar approximately 2" from each end of the tile. Place the second tile.

Slide the reusable wedges into the clips to **LEVEL, ALIGN, SPACE** and **HOLD** the tiles.

Once mortar has set, simply kick the clips to snap off at the specially designated break-points. Save wedges for future use.

*The LASH system should only be used with a minimum 1/2" x 1/2" x 1/2" square trowel notch to apply the setting material. Back buttering your tile is always recommended.*

| Item # | Type            | Quantity                        |
|--------|-----------------|---------------------------------|

**Speed up installation with LASH Pliers**

**99750Q  
LASH Pliers**

- Use with QEP LASH Tile Leveling Systems

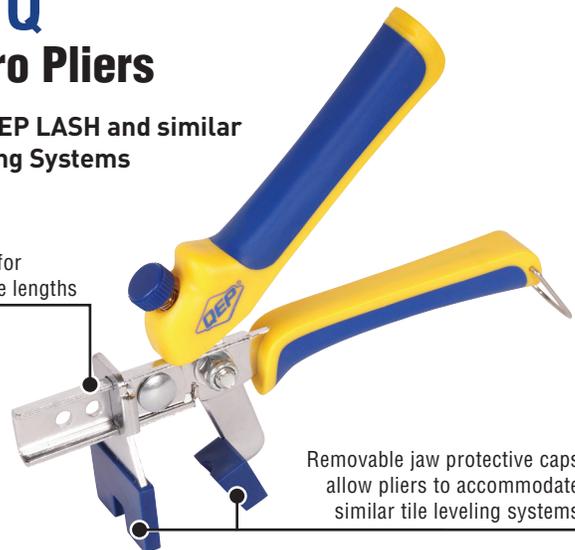

Provides maximum force to push wedges into clips

**99757Q  
LASH Pro Pliers**

- Use with QEP LASH and similar Tile Leveling Systems

Easily adjusts for different wedge lengths

Removable jaw protective caps allow pliers to accommodate similar tile leveling systems
