### DURABLE ALUMINUM ALLOY

Corrosion & Rust Resistance  
High Quality & Reliable

### Sturdy Aluminum Alloy

This power inverter is made of aluminum alloy material, which is able to resist oxidation, compression, vibration, and deformation. As a result, a slight drop or impact will not affect the internal parts.

### CLEAR LCD SCREEN

LCD Display  
LED Indicators  
Switch On / Off  
USB Port

### LCD Screen & LED Indicators

The LCD screen easily watches the input/output power and LED indicators to facilitate the user to observe the machine's regular operation more directly. In addition, an independent power switch is easy to control the inverter.

### EFFORTLESS TO CONTROL

LCD Remote Controller

Reliable Cable  
Extra Fuse

### Effortless to Control

The remote controller uses a high-quality plastic shell for wear resistance and fall resistance. This LCD remote controller with 3 m length cable and fuses accurately controls the ac to dc converter in the room and open area.

### HIGH-SPEED COOLING FAN

• Built-in Fan  
• Reduce Heat  
• Extend Service Life

### Multiple Protection Designs

There are six main protection measures for an inverter: short circuit protection, over-temperature protection, over-load protection, low voltage protection, over-voltage protection, reverse polarity protection.

### ALL-ROUND PROTECTION

Short Circuit Protection  
Over Temperature Protection  
Over-Load Protection  
Over-Voltage Protection  
Reverse Polarity Protection  
Low Voltage Protection

### Intelligent Fan Cooling

A built-in silent cooling fan will effectively start when the internal temperature is 113°F / 45°C. Fan net cover prevents small animals from flying into the machine.

### MORE WIDELY USED

### Various Application

This modified sine wave inverter is ideal for a gift, cell phone, laptop, electric light, digital camera, breast pump, TV, electrical tools, microwaves, etc. Much more convenient for being used as a car and home power supply.
