BOSCH

42 IS OUR NEW FAVORITE NUMBER

HARD-CORE M42 ALLOY COBALT PROVIDING EXTREME HEAT OPTIMIZATION FOR LONGER LIFE

M42 is an alloy engineered with 8% Cobalt - 60% more than most of the market delivering 10X life vs. standard bits, a no-skate tip and heat optimization for longer life.

#M42

10X LIFE in hard metals

60% MORE COBALT than M35 cobalt drill bits

COBALT**M42**

M42 8% Cobalt

NO-SKATE TIP
Fast, accurate starts reduce bit walking on material surface

COOLER EXTENDED DRILLING
Withstands high temperatures in extended drilling application

3-FLAT SHANK
Tighter chuck hold reduces bit slippage

USER SCENARIOS

"I'm continuously drilling thorugh hard metals."

"My twist drill bit is over heating and/or losing its sharpness when drilling in metal."

"I'm doing production drilling, repeated drilling or professional projects."

OPTIMAL FOR (TRADES)

METALWORKING | MACHINING | PLUMBING | REMODELER | GENERAL CONTRACTOR MRO | ELECTRICAL (INDOORS)

BOSCH VALUE

- Bosch Cobalt M42 provides 60% more cobalt content than the market standard
- M42 delivers 10X longer bit life
- No skate tip delivers accurate starts
