IMPORTANT SAFETY INFORMATION

⚠ **WARNING:** READ, UNDERSTAND, AND FOLLOW ALL INSTRUCTIONS AND WARNINGS BEFORE USING THIS PRODUCT. FAILURE TO DO SO MAY RESULT IN PERSONAL INJURY AND/OR PROPERTY DAMAGE.

1. DO NOT exceed rated capacity. Overloading the stool can cause damage to or failure of the stool.
2. Use only on a hard, level surface capable of sustaining the load. Use on uneven or yielding surfaces can result in stool instability.
3. DO NOT stand on stool. Serious injury may occur.
4. DO NOT expose to heat. Parts of the unit are under pressure.
5. DO NOT alter this product in any way.
6. Keep your work area clean and well lit. Cluttered work areas invite accidents.
7. Store idle stool out of reach of children.
8. Stool service must be performed only by qualified repair personnel. Service or maintenance performed by unqualified personnel could result in a risk of injury.
9. When servicing a stool, use only identical replacement parts - refer to attached, product-specific parts list and diagram. Use of unauthorized parts may create a risk of injury.
10. The warnings, precautions, and instructions discussed in this manual cannot cover all possible conditions and situations that may occur. The operator must understand that common sense and caution are factors, which cannot be built into this product, but must be supplied by the operator.

SPECIFIC WARNINGS

Maximum weight capacity is 330lbs/150kg. Do not stand on stool or use the stool as ladder. Do not sit on the backrest or edge of the stool. For indoor use only. The stool must be on a level surface for proper stability. Only use the stool when fully assembled. Failure to follow warnings can cause serious injury.

PACKAGING CONTENTS

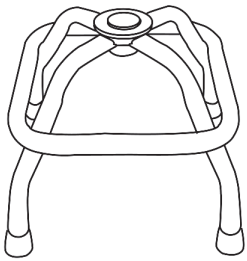

Seat Cushion with Lifting Lever

Cylinder

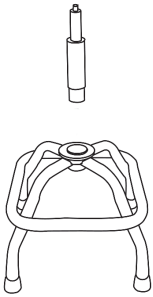

Base

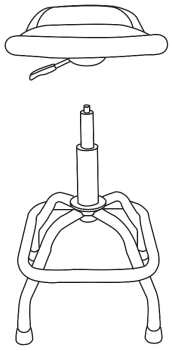

ASSEMBLY INSTRUCTIONS

Note: No tools are required for assembly, but inspect components for proper fit and alignment before assembling. Tighten any loose fasteners. Do not use if any parts are damaged or missing.

Step 1

Step 2

1. Place the base on a solid surface and insert the wider end of the pneumatic cylinder into the opening in the center of the base.
2. Carefully, position the seat assembly over the center rod in the pneumatic cylinder and press down.
3. Ensure all three pieces have properly seated and fit together tightly. You should now be able to lift the seat up by the cushion without it coming off the pneumatic cylinder. If the seat comes off, repeat steps 2 and 3.

Step 3
