Safety Information

The following responsible party designated in FCC §2.909 is responsible for this declaration:

Model Number: LIAK366

Company Name: TAL INTERNATIONAL CORPORATION

Company Address: 2919 E. Philadelphia St., Ontario, CA 91761, U.S.A.

Telephone Number: (909) 923-2888 Fax: (909) 923-8337

CAUTION: To reduce the risk of electrical shock, before starting installation, disconnect the power by turning off the circuit breaker or removing the fuse at the fuse box. Turning the power off using the fan switch is not sufficient.

CAUTION: To avoid accidental burning, allow the glass shade to cool completely before touching or replacing the glass shade.

CAUTION: To reduce the risk of fire and electrical shock, this light should be used only with the fan models listed below:
Model: AK366DL, AK366ADL, AK366BDL (AK366, AK366A, AK366B)
Manufactured by company: Air Cool Industrial Co, Ltd.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: Suitable For Use In Damp Locations.

WARNING: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

READ AND SAVE THESE INSTRUCTIONS

Warranty

The supplier warrants the light kit to be free from defects in workmanship and material present at time of shipment from the factory for three years after the date of purchase by the original purchaser. The supplier also warrants that all other light kit parts, excluding any glass, to be free from defects in workmanship and material at the time of shipment from the factory for a period of three years after the date of purchase by the original purchaser. We agree to correct such defects without charge or at our option replace with a comparable or superior model if the product is returned. To obtain warranty service, you must present a copy of the receipt as proof of purchase. All costs of removing and reinstalling the product are your responsibility. Damage to any part such as by accident, misuse, improper installation or by affixing any accessories, is not covered by this warranty. Because of varying climatic conditions this warranty does not cover any changes in brass finish, including rusting, pitting, corroding, tarnishing, or peeling. Brass finishes of this type give their longest useful life when protected from varying weather conditions. Servicing performed by unauthorized persons shall render the warranty invalid. There is no other express warranty. Commercial Electric hereby disclaims any and all warranties, including but not limited to those of merchantability and fitness for a particular purpose to the extent permitted by law. The duration of any implied warranty which cannot be disclaimed is limited to the time period as specified in the express warranty. Some states do not allow a limitation on how long an implied warranty lasts, so the above limitation may not apply to you. The retailer shall not be liable for incidental, consequential, or special damages arising out of or in connection with product use or performance except as may otherwise be accorded by law. Some states do not allow the exclusion of incidental or consequential damages, so the above exclusion or limitation may not apply to you. This warranty gives specific legal rights, and you may also have other rights which vary from state to state. This warranty supersedes all prior warranties. Shipping costs for any return of product as part of a claim on the warranty must be paid by the customer.

Pre-Installation

TOOLS REQUIRED

PACKAGE CONTENTS

Part	Description	N. W.	Quantity
A	24W LED light kit assembly	1.57 kg (3.45 lb)	1

Assembly — Installing the Light Kit

1 Preparing the fan

- Turn the light cover (AA) counterclockwise to remove the light cover (AA) from the light kit mounting plate (BB).

2 Installing the LED light kit to the light kit mounting plate

CAUTION: Before starting installation, disconnect the power by turning off the circuit breaker or removing the fuse at the fuse box. Turning power off using the fan switch is not sufficient to prevent electric shock.

NOTE: If the light kit could be wobbled by hand, it means the light kit is not twisted completely till the right position. Keep twisting the light kit till it could not be wobbled by hand.

- While holding the 24W LED light kit (A) under the fan motor assembly (FF), snap together the wire connection plugs (CC):
 - White to white
 - Black to black
- Position the notches (DD) on the inner edge of the 24W LED light kit (A) so they match the tabs (EE) on the outside of the rim on the light kit mounting plate (BB). Carefully lift the 24W LED light kit (A) inside the light kit mounting plate (BB) and secure it to the fan by turning the 24W LED light kit (A) clockwise until snug.
