! Indicates required accessory to complete your project

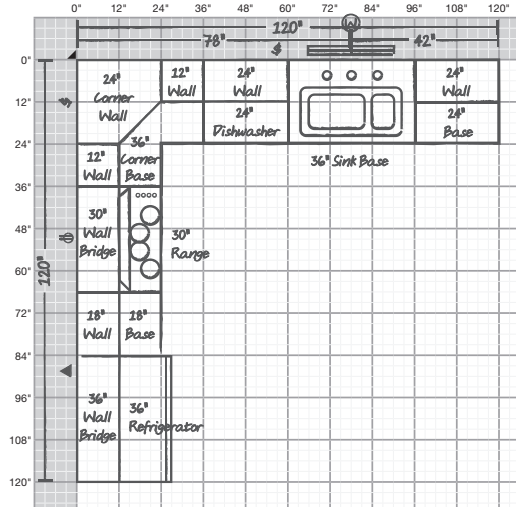

Dimensions are rounded and are provided for general guidance only. For proper installation on all Hampton Bay products, refer to instructions printed on product carton. The manufacturer reserves the right to discontinue the sale or change the specifications of any product at any time. Every effort was made to assure accuracy of the information contained herein at the time of printing, however, the manufacturer makes no representations to such accuracies.

HAMPTON BAY Plan your layout

Design Tips

- Start with the first wall on the left and work to your right around the room. Measure the overall length of each wall.
- Indicate breaks in walls (windows, doors, closets) by measuring to the outside edge of the molding. Include permanent appliances, air vents, electrical, plumbing, etc.
- Start sketching your cabinets. Start in the 0", 0" corner and work outward.

You may be able to move major appliances several inches to accommodate a layout change.

Designing with Different Wall Cabinet Heights

Typical layouts with 8-foot ceilings

Maximize storage with taller walls and pantries

Achieve different looks

How to Turn the Corner
