# ROASTING PANS

18/10 STAINLESS STEEL

## Use & Care Instructions

### Using Your 18/10 Stainless Steel Roasting Pan

- Before using your roasting pan for the first time, hand-wash with warm, soapy water. Rinse and dry thoroughly.
- Keep the roasting pan in the oven only during the necessary time for cooking or baking. Do not overheat empty pan. Pan and basting grill are oven-safe up to 500°F / 260°C.
- To prevent warping, avoid sudden temperature changes such as immersing hot pan in cold water. Always let the roasting pan cool before washing.
- Do not leave or store food remains in the roasting pan for long periods of time. Superficial pitting may occur if very salty or acidic foods are left in the pan.

### Cleaning and Caring For Your 18/10 Stainless Steel Roasting Pan

- Stainless steel roasting pan and basting grill are dishwasher-safe. However, we recommend hand-drying the roasting pan and basting grill immediately after the rinse cycle or hand-washing and drying to preserve the original finish.
- Prolonged exposure to high heat settings may cause your roasting pan to discolor. To recondition your roasting pan or to remove stubborn spots or stains, use a nonabrasive pad and quality stainless steel cleanser such as Bar Keepers Friend®.

#### IMPORTANT

- **TO AVOID INJURY, ALWAYS USE PROTECTIVE MITTS TO SAFELY HANDLE HOT ROASTING PAN.**
