

# LONG-TERM RADON GAS TEST KIT

## SELECTING THE TEST LOCATION

According to the EPA, radon testing should be conducted in the lowest lived-in area of your home that is regularly used for 8-10 hours per day. Make sure your test location is a room where the **PRO-LAB® Long-Term Radon Gas Detector** will not be exposed to drafts from vents, doors or windows. Do not place the detector in a kitchen, bathroom, crawl space, furnace room, closet, or laundry room. Do not place the detector in direct sunlight or near any heat source such as a fireplace or heater.

## STEP 1: BEGINNING TEST

When you are ready to begin the test, cut open the clear bag that contains the radon detector. As soon as you open the bag, the detector is exposed and the test has begun.

## STEP 2: PLACE THE RADON DETECTOR

Hang or place the detector at least three feet away from exterior doors or windows and at least two feet off the floor. Leave the detector in place and undisturbed for three to twelve months.

## STEP 3: FILLING OUT THE INFORMATION FORM

Record the radon detector serial number, test location, the date you started the test. After filling out this information, detach the radon information form and put it in a safe place. You will need the information form in order to complete the test.

## STEP 4: ENDING THE TEST

Record the date the test ended on the **PRO-LAB®** Long-Term Radon Information Form. Make sure your information form is now completely filled out including the other required information such as your name, address, etc. If you leave out any information, your detector cannot be analyzed.

## STEP 5: LAB RESULTS DIRECTIONS

For fastest results, download the **PROLAB TEST KITS** App to register your radon kit or visit [prolabinc.com/register](http://prolabinc.com/register). Once you obtain your online registration number, please write it in the field on the test location and payment form below.

### ■ Standard Results within 7 days, \$20 lab fee ■ Express Results in 3 business days, \$40 lab fee

Place the Long Term Radon Gas Detector within 24 hours of completing the test in the pre-paid postage envelope provided along with the completed test location form and the proper payment amount, money order, credit card payment (Visa, Mastercard, Discover, or AMEX only) or check (made payable to **PRO-LAB®**). If you opt to use Express Lab Results, you must send your sample to **PRO-LAB®** using an overnight shipping company such as Federal Express or UPS. Send the test kit to **PRO-LAB®** 1675 N. Commerce Parkway, Weston, FL 33326. (Express samples can only be received Monday - Friday). Email/text notifications will let you know when your sample is received. You may print and view your results on the **PROLAB Test Kits** app or at [prolabinc.com/results](http://prolabinc.com/results).

**\*Special Note: New Jersey residents must add an additional \$20 fee - made payable to PRO-LAB®. PRO-LAB® is required to pay an Administrative Fee to the NJDEP for Radon Tests conducted in New Jersey.**  
**\*Nota especial: los residentes de Nueva Jersey deben agregar una tarifa adicional de \$20, pagadera a PRO-LAB®. PRO-LAB® debe pagar una tarifa administrativa al NJDEP por las pruebas de radón realizadas en Nueva Jersey.**
