

ASSEMBLY INSTRUCTIONS

STEP 1: Stationary Option

Screw each LEVELLING FOOT into the bottom of each POST. Turn clockwise to screw in place.

STEP 2: SLEEVES

Each SLEEVE has 2 pieces that are designed to lock together and in place on the POST. Each POST has shallow horizontal indentation notches at 1" intervals. Each half of a SLEEVE has horizontal embossed protrusions on its inside, designed to lock together and in place on the POST.

** Always install the bottom SHELF first.*

** For safety and stability, the lowest SHELF should be lower than the 3rd notch from the bottom.*

On the bottom of each POST, fix together 1 pair of SLEEVE halves at the desired level. Make sure the narrow end of the SLEEVE faces up.

Slide the SLEEVE slightly until you hear a click to confirm the pair is locked onto the POST. DO NOT fix more than one SLEEVE on each POST at a time.

Repeat this for each POST and make sure they are at the same notch height.

STEP 3: INSTALLING BOTTOM SHELF

Once SLEEVES are in place, slide the POSTS through the holes (corner cylinders) in the SHELF. Slide the POSTS so that the SHELF holes are positioned over the SLEEVES.

Stand the unit upright.

** Use a rubber mallet, if needed, to secure the SHELF onto the SLEEVES.*

ASSEMBLY INSTRUCTIONS

STEP 4: INSTALLING SHELVES

On each POST, fix 1 SLEEVE at the desired height between SHELVES. Make sure the narrow end of the SLEEVE faces up. Repeat this for each POST and make sure they are at the same notch height.

REPEAT STEP 4 TO INSTALL ADDITIONAL SHELVES AS DESIRED.

** Use a rubber mallet, if needed, to secure the SHELF onto the SLEEVES.*

WARNINGS

1. **Read and understand all instructions.** Failure to follow all instructions may result in injury and/or damage.
2. **Use the caster wrench to tighten casters completely.** Failure to do as instructed could result in the caster stem breaking thereby causing the shelving rack to collapse.
3. **The warnings, cautions, and instructions discussed in this manual cannot cover all possible conditions or situations that may occur.** The user must always be aware of their environment and ensure that they use the product in a safe and responsible manner.
4. **Do NOT modify the product in any way.** Unauthorized modification may impair the function and/or safety of the product, and may affect the life of the product.
5. **Check for damaged parts.** Before using this product, carefully check that all parts are in good condition, and that the product will operate properly and perform its intended function. Check for damaged parts and any other conditions that may affect the operation of this product. Replace damaged or worn parts, and never use this product with a damaged part.

CARE AND MAINTENANCE

- Avoid harsh, abrasive cleaners, and other corrosive chemicals.
