### Value

360° protection for your floors. Quick and easy installation saves time and money.

### Load

Promotes even weight distribution to prevent floor damage.

# Waterproof underlayment. Worryproof floors.

Eco Cork Foam is the **only** underlayment with a built-in **6 mil** vapor barrier. ECF can be used on concrete or wood subfloors on any level of your home.

Eco Cork Foam® (ECF) Underlayment provides unsurpassed support and protection for a variety of flooring products. ECF is perfect for vinyl (5mm or thicker), laminate, engineered wood, solid wood and all pre-attached pad flooring.

ECF is engineered using a patented blend of polyethylene foam and cork, resulting in a product that is waterproof and provides superior sound absorption. Every roll of ECF comes standard with a **6 mil** vapor barrier laminated across the entire surface of the underlayment and a pre-attached tape strip for use in concrete subfloor installations. It's the **only** waterproof underlayment with a built-in **6 mil** vapor barrier.
