3.3 Securing the Umbrella

In windy conditions, it is important to secure the umbrella to prevent it from tipping over or being damaged. Use the provided tie-downs or weights to anchor the umbrella to the stand or base.

4. Maintenance and Care

4.1 Regular Cleaning

Frequency: Clean the umbrella at least once a month to remove dust and debris.

Cleaning Solution: Use a mixture of mild soap and water to clean the canopy and

frame. Avoid using harsh chemicals or abrasive cleaners that could damage the fabric or finish.

Drying: After cleaning, use a dry, lint-free cloth to dry the umbrella and prevent streaks.

4.2 Preventing Damage

Avoid Harsh Weather: Do not leave the umbrella open in strong winds, heavy rain, or snow.

Protect the Fabric: Avoid placing the umbrella in direct sunlight for extended periods to prevent fading or damage to the fabric.

Temperature: Avoid exposing the umbrella to extreme temperature changes, as this can cause the frame to expand or contract and potentially crack.

4.3 Handling and Storage

Lifting: When moving the umbrella, lift it from the bottom and avoid holding it by the edges.

Transporting: If you need to transport the umbrella, disassemble it and wrap the components in a soft blanket or bubble wrap. Store the umbrella in a cool, dry place.
