

Product Selection

Take in-stock cabinets home today or place a special order with an Associate. Special orders deliver to the store within 2 weeks; see an Associate or the Special Services Desk to place your order.*

HomeDepot.com orders typically ship in one day. In-Stock selection varies by store.

*Most orders deliver within 2 weeks. Some orders and store locations, including those outside the Continental U.S., may require more delivery time. Five cabinet minimum applies to all special orders. No minimum for accessory-only orders.

Plan Your Layout

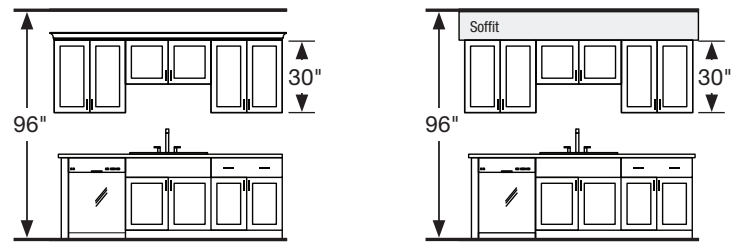

Design Tips

- Start with the first wall on the left and work to your right around the room. Measure the overall length of each wall.
- Indicate breaks in walls (windows, doors, closets) by measuring to the outside edge of the molding. Include permanent appliances, air vents, electrical, plumbing, etc.
- Start sketching your cabinets. Start in the 0", 0" corner and work outward.

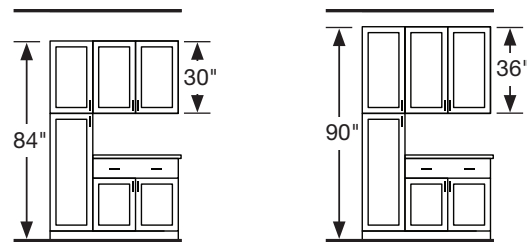

You may be able to move major appliances several inches to accommodate a layout change.

Designing with Different Wall Cabinet Heights

Typical layouts with 8-foot ceilings

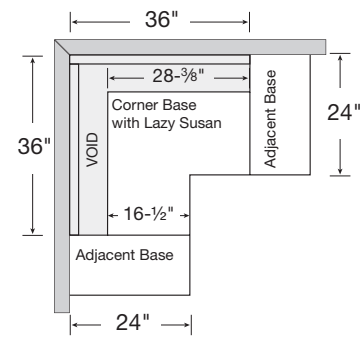

Maximize storage with taller walls and pantry

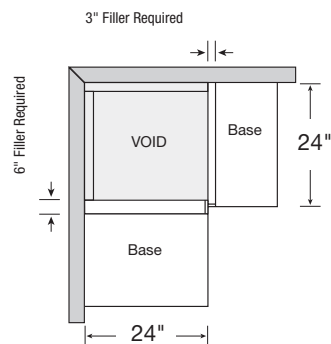

How to Turn the Corner
