Installing the Blum Soft Closer Hinges Model 39C for **Frameless In the Wall Cabinets Only**

This is a one piece concealed hinge with a built in Blumotion soft close option. The hinges are installed in all the doors. Due to various sizes of cabinets and doors we may ship the door separately from the cabinet to insure the door and hinges may arrive intact and undamaged.

(Exception with 52nd Street Cabinets) if this is the cabinet style you purchased the hinges are located in the hardware bag they only mount one way in the door and follow the mounting procedures below..
