### HEAVY DUTY MATERIAL ENSURE PREMIUM AND SECURITY

Upgrade Dampened Drawer Slideway for Smooth Use

- IPX4 Waterproof
- Wear-resistant
- High & Low Temp - resistant
- Excellent Shock Absorption
- Low Noise & Smooth Operation

The undercounter drawer fridge is constructed from stainless steel with a protective layer to resist damage. And the undercounter freezer drawer is ideal for outdoor use due to its IPX4 waterproof rating. The damping sliding rails make it easy to open and ensure their long-term functionality.

## CARING DETAILS

- Grid Organizer
- Raised Feet
- Front Ventilation Holes
- Detachable Door Handle

Our drawer fridge has a grid organizer that allows you to customize your storage space according to your needs. Its large capacity of 145 L/5.12 Cu.ft is perfect for storing food, fruits, and beverages.

## QUALITY-DRIVEN DESIGN, INTEGRATED DRAWERS

Adjustable from 820 mm to 870 mm

- Built-in
- Outdoor Use
- Free-standing

With the adjustable feet, you can adjust the refrigerator's height, making it easy to incorporate this refrigerator as an integrated part of your smart home setup. The front-positioned heat dissipation vents ensure a harmonious fit with your cabinets.

## USER-FRIENDLY DESIGN, HASSLE-FREE USAGE

One-stop refrigeration and freshness

- Frost-free Cooling
- 39dB Low Noise
- Automatic Light On
- Door Unclosed Alert

Our drawer fridge features frost-free cooling technology without manual defrosting. Automatic lighting enhances visibility, while the refrigerator operates with low noise levels, ensuring quiet cooling performance that lets you focus on other tasks.

- Item Model Number:** BC-145WD
- Product Type:** Chill (upper area) + Freeze (lower area)
- Material:** Cold Plate Spray-coated + Stainless Steel
- Product Dimension:** 22" x 23.4" x 34.3"/560 x 595 x 870 mm
- Net Weight:** 50 kg
- Rated Power:** 87 W
- Temperature:** 37~50 °F/3~10 °C (Upper)  
-0.4~41 °F/-18 ~3 °C (Lower)
- Capacity:** 5.12 Cu.ft. / 145 L
- Accessory:** 1 x User Manual , 1 x Shelf, 2 x Handle

### Compact & Efficient – 24-Inch Undercounter Refrigerator

This under-counter refrigerator is a compact option that easily fits under your kitchen counter. With its high functionality and modern design, this refrigerator is a great choice for home and commercial use. With its spacious cabinet and advanced cooling system, this undercounter refrigerator proves a reliable option to keep items fresh. Since you can set up this refrigerator on your kitchen counter, it keeps your items within reach. So, use this two drawer refrigerator and experience superior cooling and storage!

### Advanced Cooling System & Temperature Control

Both the upper and lower drawers of this under-counter refrigerator have different temperature levels. In the upper drawer, the temperature can be set between 3 to 10 °C (37 to 50 °F). So, this drawer keeps the items chilled. The lower drawer has a temperature range of -18 to 3 °C (-64.4 to 37 °F).

This drawer ensures that your items are stored at an ideal temperature. A touch panel is equipped on this refrigerator to enable you to easily control the temperature. A 50-mm-thick integrated foam layer is also built into this refrigerator. It maintains the desired temperature efficiently. A powerful compressor is also equipped in this refrigerator to ensure efficient cooling.

### Alerting Alarm & Noiseless Mechanism

To ensure the refrigerator's safety, it is equipped with an alarm system. If the door is left ajar, the alarm system activates and emits a sound. This mechanism prevents the loss of cool air to ensure the refrigerator maintains its temperature. This system also avoids unnecessary energy consumption.

The 24-inch under-counter refrigerator operates at a noise level of 39 decibels (dB). This noise level is equal to the noise level of a quiet library. This means this refrigerator doesn't cause noise while working to create a peaceful and pleasant environment. As a result, you can easily use it in offices, open-plan living spaces, and at night.

### High Adjustability & Automatic Light On

This under-counter refrigerator features adjustable height to help accommodate a variety of cabinet heights and kitchen setups. It is equipped with adjustable feet whose height can be adjusted between 32.3 inches (820 mm) and 34.3 inches (870 mm).

This 24-inch compact refrigerator is equipped with two drawers. These drawers not only enhance the functionality of this refrigerator but also give it a sleek look. The drawer design also improves safety by preventing things from falling.

### Easy to Setup

A simple-to-install compact refrigerator saves you time and money since it doesn't require professional assistance to be set up. It also helps you install it without technical skills or multiple tools.

Moreover, if a 24-inch refrigerator is simple to install, you can place it in multiple settings, such as kitchens, offices, and dorm rooms. Here, the VEVOR 24-inch undercounter refrigerator is super simple to install since it doesn't require tools or technical skills. As a result, it saves you time and money.

### Premium Quality & Ventilation Mechanism

The VEVOR undercounter refrigerator is equipped with front ventilation. This ventilation system allows you to install this refrigerator in tight places without concern for heat dissipation. This feature proves useful in outdoor kitchen setups where space might be limited.

Moreover, this refrigerator is made of stainless steel. It provides a steel look and ensures durability. Moreover, stainless steel is known for its resistance to corrosion, stains, and general wear and tear. The sliding rails are also built in this refrigerator. These rails minimize the vibration while opening and closing the refrigerator. This system ensures smooth operation by protecting the content inside, and preventing noise.
