

Easy Care & Maintenance

Setup Instructions: Your new rug may have been folded to allow for easier and faster shipping. Unfold it as soon as possible to allow it to begin settling. You may notice lines or creases in your rug when you first lay it out. These are completely normal and are not permanent but will take time to settle. Depending on the tension of the fold, it could take days or weeks to completely flatten. To expedite this process, follow the steps below.

Fold your rug in the opposite direction as its current fold.

Vacuum the rug.

Move furniture onto the rug and walk on it as you normally would.

Care Instructions: Vacuum carefully without a beater bar, machine wash under cold and gentle cycle, do not use bleach, line dry, professional cleaning recommended for stubborn stains.

Washable

Durable

Withstands several washes.

Stain Resistant
