

An economical weatherseal for doors and windows. Helps block out cold drafts, dust, and insects. Saves energy and money year-round!

### **Easy to Use:**

1. Close door or window.
2. Place felt along doorstep or window frame with edge of felt firmly touching door or window sash.
3. Nail, tack or staple felt in place.

Felt may be tacked to bottom and top sash. Felt will compress to form seal when window is closed.
