

Van Zyverden's
WISTERIA PURPLE

Wisteria, widely popular, is something between a shrub and a vine, blooming vigorously in spring with showy, cascading flower clusters that provide growing color. Wisteria provides the drapery, vining slipcover look to camouflage a view or provide shade over a porch or pergola. It can live a long, healthy life with no pruning at all (depending on the look you seek), happily twining, climbing, and sprawling over everything and anything in its path. A sturdy support is recommended. It is drought tolerant, and easy to grow by anyone, green thumb or not!

*Sweet fragrance
feast for the senses*

*Astonishing vigor, producing
hundreds of violet-blue blooms*

Lasts and grows for ever

About This Variety: Wisteria gives the artful gardener a paintbrush for which to cover the landscape canvas. It is vigorous and rewarding, growing up to 10 feet or more annually.

Growing Instructions: Dig a hole about a foot deep and a foot wide. Set the plant in the hole and fill it half full with soil. Water. After water is drained, fill the rest of the hole with the remaining soil. Then water thoroughly again and continue doing so regularly.

Care Tip: Regular pruning helps promote optimal flowering. Prune in late winter. Remove at least half the prior year's growth, leaving just a few buds per stem.

Exposure: Full sun

Height: Grows 30-60' tall

Spacing: Plant- 10-15' apart, crown 1" below soil level

Hardy in: USDA zones 5-9

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
