Door Trim Kits are manufactured from high quality Aluminum.

Our products are designed for faster, easier installation.

Available in 10 unique colors

Door Trim Kits are simply cut to length with angles and easily installed by the DIY consumer.

If installed properly this product is designed with the contour of standard brickmold for a finished product that will look amazing on any standard brickmold application.

Once Installed & under normal use our products will provide protection from the elements and eliminate painting or staining, even resistant to pets.
