

Remove the cap

¼ Turn Clockwise to remove the the cap

Alternative cap removal

Spout can be used to remove cap when turned upside down.

Install the Simple Pour Spout

The Simple Pour Spout threads onto the cap with a clockwise turn. Use plastic wings to properly tighten.

Pour the paint into the tray

Pour paint and slowly bring paint can back up to its upright position to avoid any drips.

Remove the spout

After Pouring the paint, turn the spout counter clockwise to remove the spout.

Clean spout to reuse at a later time.

Secure cap

Reseal the cap and align the arrows with the window to ensure a secure fit.

Lid Removal

If needed, entire lid can be removed with a paint key or screwdriver.
