WARNING

- **WARNING! DO NOT** move the shelving system when loaded. Always check that the casters are tightly screwed into the poles before moving. The casters can only support a maximum of 110 lbs. Immediately replace casters that are worn or damaged.
- **CAUTION!** Use the tip-over prevention hardware kit to ensure the bin rack does not tip over.
- **CAUTION! DO NOT** stand on or climb on the rack.
- **CAUTION! DO NOT** drop heavy items on the shelves.
- Place heavier items on the lower shelves and lighter ones on the top shelves.

Please visit **sevilleclassics.com** to shop our wide range of products.

Tip-Over Prevention Instructions

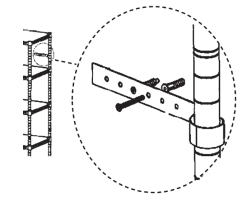

Per the assembly instructions below, a tip-over prevention hardware kit is recommended. Secure wall straps to wood studs whenever possible. Avoid water or electric lines when securing the shelf to the wall.

Loop the **STRAPS (I)** around the rear poles of the rack or the back of the upper shelves.

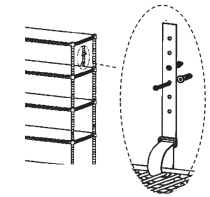

Mark the installation points through the holes in the strap with a pencil.

For Dry Wall: Drill pilot holes into points and insert **ANCHORS (J)**. Attach with **SCREWS (K)**.

For Wood Studs: Use **SCREWS (K)** to attach **STRAPS (I)** to studs.

Horizontal

Vertical

Note:

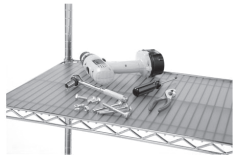

Please be considerate of the environment and recycle the brown box the item was delivered in along with all applicable packaging materials. Thank you.

Weight capacity	Per shelf	Overall
On leveling feet	**300 lb** (136.1 kg)	**1500 lb** (680 kg)
On wheels	**27.5 lb** (12.4 kg)	**110 lb** (49.9 kg)

Shelf Labels (6-Pack), Model #: WEB106

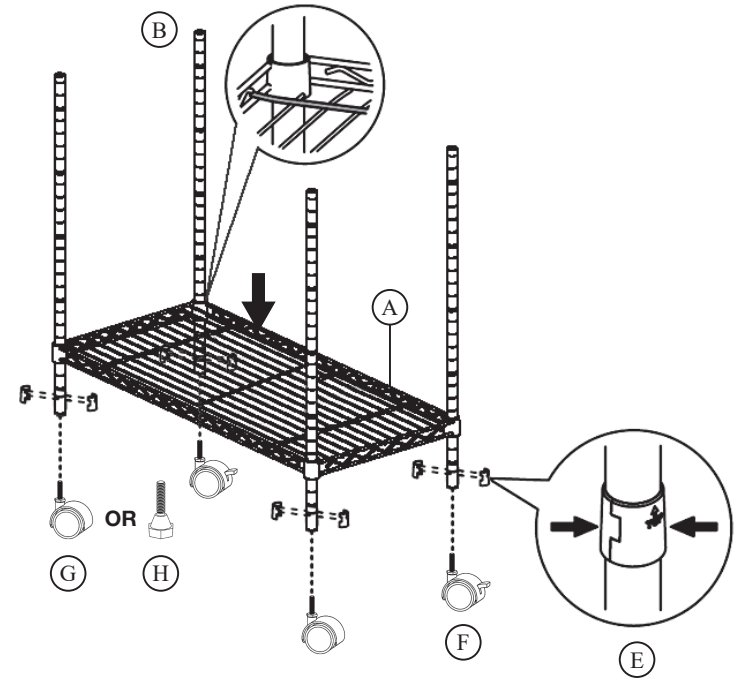

Shelving Liners 30" x 14" (5-Pack), Model #: WEB750

Steel Wire Shelf 30" x 14", Model #: WEB370

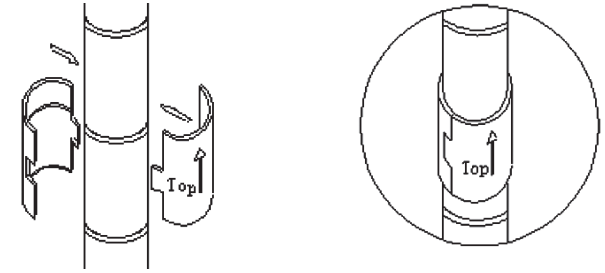

STEP 1.

Screw-in either **Casters (F & G)** or **LEVELING FEET (H)** into the **BOTTOM POLES (B)**.

STEP 2.

Snap **SLIP SLEEVES (E)** around the grooves on the **BOTTOM POLES (B)** for the lowest shelf. Fit **SHELF (A)** over slip shelves. Push the shelf down until snug.

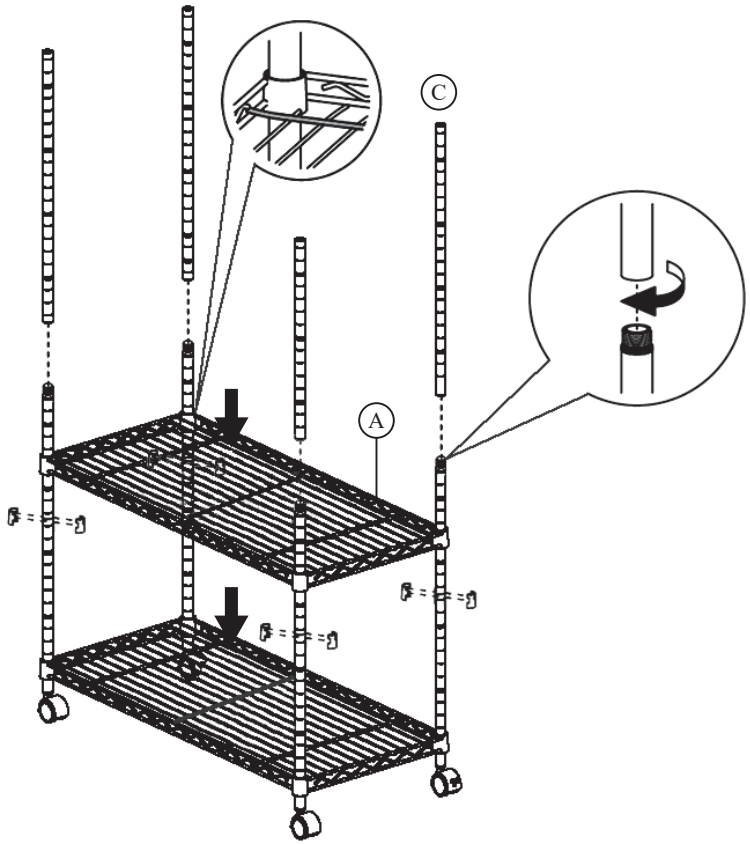

STEP 3.

Repeat **STEP 2** for the next 2 shelves.

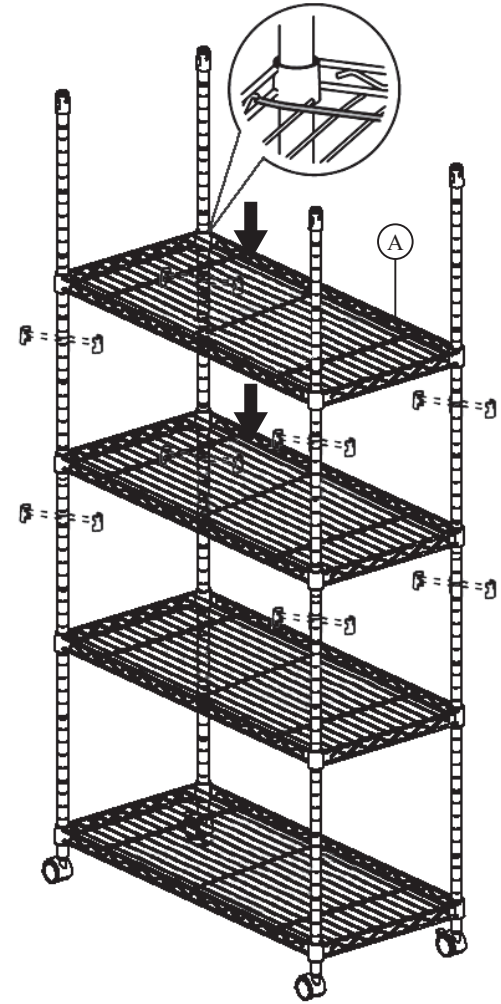

Screw-in the **TOP POLES (C)** onto the **BOTTOM POLES (B)**.
Screw **CONNECTORS (D)** into top of **BOTTOM POLES (B)**.
Screw **TOP POLES (C)** to **CONNECTORS (D)**.

TIP! Connectors may be pre-installed.

STEP 4.

Snap the **SLIP SLEEVES (E)** around the grooves on the top poles for the remaining 4 shelves.

Your steel wire shelving is now assembled and ready to use.
