

# WATER-BASED Product & Color Guide

INTERIOR WOOD  
STAINS & FINISHING  
PRODUCTS

FIND THE RIGHT PRODUCT & COLOR  
FOR YOUR NEXT PROJECT

## Three Easy Steps to a Beautiful Finish

### 1 Prep

Pre-Stain Wood Conditioner properly prepares interior bare or stripped wood surfaces for staining.

### 2 Stain

Wood Stains create vibrant colors that enhance the natural beauty of wood.

### 3 Protect

Clear Finishes provide a hard, durable topcoat that resists abrasion, marring & scratching on interior and exterior surfaces.

Bench: Caramel Nougat TIS-009, Satin Polyurethane

- Prepares Wood Surfaces for Water-Based Staining
- Helps Promote Even Staining
- Seals Soft Wood for a Uniform Color

## Helps Prevent Streaks & Blotches

Wood rarely absorbs stain evenly. To minimize this difference and to reduce the blotchiness that can occur when staining, brush on a coat of BEHR PREMIUM® Water-Based Pre-Stain Wood Conditioner after removing the sanding dust, but before you apply your stain.
