Check all connections, make sure they are all on tight to prevent water from entering the connections.

3. Attach the 25 ft. main cord to the dusk to dawn transformer (Fig. 5). Fully insert the connector into the quick connector (Fig. 4).

4. Attach the light heads to the main cord. There are 2 jaws spaced along the length of the main cord, plug in the quick connectors from the light heads into the connectors in the main cord (Fig. 6).

5. Remove the thumbscrews from the stakes (Fig. 16). Push stakes into ground and aim light (Fig. 14).
SAFETY AND PRECAUTIONS

1. Suitable for indoor and outdoor wet locations.
2. Do NOT look directly at LED light sources.
3. The LED modules used in this fixture are not serviceable.
4. This product is inspected prior to shipping. Do not use if product is cracked, broken or missing parts.
5. Suitable for use in operating environments ranging between -13° to 122°F (-25° to 50°C). Lifetime of this product may be reduced with prolonged exposure to extreme temperatures.
6. Do not immerse in water or any liquid and make sure the cord is not pinched and damaged to the cord.
7. Do not cover the product as the covering may cause the lights to overheat or ignite.
8. Do not use if there is any damage to the light or cord insulation. Inspect periodically.
9. Do not install the lighting near flammable liquids.
10. Do not install on doors or gates where repeated flexing can occur.
11. For outdoor installations, a Ground Fault Interrupting Circuit (GFIC) outlet must be used.
12. Do not hang objects from cords.
13. Do not use dimmers or on the cord switches.
14. Ensure all connections and the cap of the last segment of cord is tightly secured to prevent water entry.
15. Unplug cord from outlet prior to adding additional strands.

ADDITIONAL WARNINGS

The device complex with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changing or modifying this fixture in any way may void the FCC approval and negate the warranty. If you need to return the fixture to Stonepoint Lighting for warranty, please contact us at info@stonepointledlighting.com. All returns are subject to the return policy. This warranty does not cover normal wear of parts or damage resulting from any misuse of the product. Misuse of this product may void the warranty and cause damage to the product. Do NOT use with extension cords near water or wherever water or moisture may be present.

CUSTOMER SERVICE

For questions regarding this product, please contact us at 303.652.6164, M-F 7am - 4pm MT or e-mail us at info@stonepointledlighting.com.

INSTALLATION

1. The dusk to dawn transformer must be plugged into a GFCI protected outlet, but do not plug in the dusk to dawn transformer until the installation is complete(1).
2. Each connection is made of a connector (Fig. 3) and quick connector (Fig. 4). The quick connectors and connectors are only designed to connect one way.
3. Attach the (1) main cord to the dusk to dawn transformer. (Fig. 5) Tighten the collar rings firmly to keep water out. (Fig. 6). Unroll the cord and connect the light heads and place in desired location.

CLEANING INSTRUCTIONS

Using a soft-cloth, clean the fixture using a mild, non-abrasive glass cleaner. DO NOT use solvents. DO NOT use cleaners containing abrasive agents. NEVER spray liquids cleaner directly onto the light or LED.

INSTALLATION (Continued)

4. Attach the light heads to the main cord. There are 2 jacks spaced along the length of the main cord, plug in the quick connectors from the light heads into the connectors in the main cord (Fig. 3). Fully insert the quick connectors into the power adapters (Fig. 8). Tighten the collar rings firmly to keep water out (Fig. 9).
5. Remove the thumbscrew from the stake (Fig. 16). Insert the 20 ft. stake into the ground stake and attach the fixture (Fig. 11) against the fixture back on the back of the light head (Fig. 12). Fasten both pieces together with the thumbscrew (Fig. 13).

WARNING:

1. The dusk to dawn sensor is detecting reflected light from the landscape light. If the landscape light immediately shuts off, then the fixture is located in an area that is too dark to allow enough light to enter the sensor. The light will need to be repositioned.

2. Change the position of the light head. Reposition light away from the reflecting surface.

3. Use a piece of black electrical tape over the bottom half of the dusk to dawn sensor. 3. Place the light in a different location where the sensor is facing. (Fig. 6)

Checking all connections, make sure they are all on tight to prevent water from entering the connections. (Fig. 4) (Fig. 5) (Fig. 6)

LED Low Voltage 25 ft. Linkable Spotlight Kit with 12W Dusk to Dawn Transformer

LED Facts

- Wattage: 4.5W each head.
- Color Temperature: 5000K
- CRI: 80
- Lumens: 300 (100 each head)
- Efficacy (Lumens Per Watt): 90
- Color Temperature: 5000K
- Rated Watts: 4.5W (Total Kit)
- CRI: 80
- Efficacy (Lumens Per Watt): 90
- Power Factor: 0.7

CRI: 80

Pull the fixture out of the package. Lock the fixture onto the back of the light head (Fig. 12). Fasten both pieces together with the thumbscrew (Fig. 13).

WARNING:

1. DO NOT alter or disassemble any of the parts of this fixture. It is possible that the parts could come apart and cause an electrical hazard.

2. DO NOT use with extension cords unless plug can be fully inserted.

3. DO NOT ALTER THE PLUG TYPE.

4. DO NOT USE with extension cords near water. DO NOT use with extension cords near water.

5. DO NOT ALTER THE PLUG TYPE.

6. DO NOT USE with extension cords near water.

7. DO NOT USE with extension cords near water.
**INSTALLATION (Continued)**

1. The light and automatically turn on at dusk and off at dawn (Fig. 14).

**CLEANING INSTRUCTIONS**

Using a soft cloth, clean the fixture using a mild, non-abrasive glass cleaner. DO NOT use solvents. DO NOT use cleaners containing abrasive agents. NEVER spray liquid cleaner directly onto the light or LED.

**TROUBLESHOOTING GUIDE**

**Problem**

- Light comes on during the daylight hours.
- Light fails to turn on/dimmers override.
- Light cycles ON and OFF continuously.
- Light goes out when light is turned on.
- Individual light goes out.

**Probable Cause**

- Feature is located in a shaded area or dusk-to-dawn sensor is detecting darkness.
- Feature is located in an area that is too dark to allow enough light to enter the sensor. The light will need to be relocated.
- Dusk-to-dawn sensor is detecting reflected light from the landscape light.
- Loosen connection or damage light cord.
- Loose connection.
- Damaged light cord.

**Solution**

- Shine a light at the dusk-to-dawn sensor.
- Replace a small piece of black electrical tape over the bottom half of the dusk-to-dawn sensor.
- Check connection.
- Discontinue use immediately.

- Call service center at 303.632.6164.

- 1. Call service center at 303.632.6164.
- 2. Call an electrician.

**3 YEAR LIMITED WARRANTY**

The product is guaranteed against failure due to factory defects in materials or workmanship for three (3) years from the date of purchase. Warranty work is non-transferable and applies only to the original owner. Proof of purchase is required for repair or replacement. This warranty does not cover normal wear or parts or damage resulting from any misuse of the product. Misuse of the product includes, but is not limited to: using in extreme weather conditions, opening the product, or trying to remove the product. Important: this warranty is only valid if the product has been purchased through an authorized reseller.

**ADDITIONAL WARNINGS**

- Outdoor installation: a ground fault interrupting circuit (GFCI) outlet must be used.
- Do not hang objects from cords.
- Do not use with an extension cord unless plug can be fully inserted.
- Always use a cord with the correct amperage rating.
- This product has a polarized plug (one blade is wider than the other). This plug will fit in a polarized outlet only one way. If it does not fit, contact a qualified electrician. Do not alter the plug in any way.
- DO NOT ALTER THE PLUG.

**SAFETY AND PRECAUTIONS**

1. Suitable for indoor and outdoor wet locations.
2. Do NOT touch directly an LED light source.
3. The LED modules used in the fixture are not serviceable.
4. This product is inspected prior to shipping. Do not use if product is cracked, broken or missing parts.
5. Suitable for use in operating environments ranging between -13°F to 122°F (-25° to 50°C). Lifetime of this product may be reduced with prolonged exposure to extremes temperatures.
6. Do not open the projector body or tamper with the power connectors.
7. Do not use if product is cracked, broken or missing parts.
8. An end cap must be securely attached at the end of the main cord (Fig. 15).
9. Do not install the lighting near flammable liquids.
10. For outdoor installation, a Ground Fault Interrupting Circuit (GFCI) outlet must be used.
11. Do not use in extreme weather conditions, opening the product, or trying to remove the product. Important: this warranty is only valid if the product has been purchased through an authorized reseller.

CLEANING INSTRUCTIONS
Using a soft cloth, clean the fixture using a mild, non-abrasive glass cleaner. DO NOT use solvent. DO NOT use cleaners containing abrasive agents. NEVER spray liquid cleaner directly onto the light or LED.

TROUBLESHOOTING GUIDE

Problem | Probable Cause | Solution
--- | --- | ---
Light comes on during the daylight hours. | 1. Fixture is located in a shaded area. 2. Quick connector is shorted. | 1. Move the light to a location without shade. 2. Check the quick connector for shorted connections.
Light turns on and off continuously. (Dusk-to-dawn sensor.) | 1. Dusk-to-dawn sensor is detecting reflected light. | 1. Place a small piece of black electrical tape over the bottom half of the dusk-to-dawn sensor. 2. Reposition the fixture so the sensor is not detecting reflected light. 3. Check the quick connector for shorted connections.

3 YEAR LIMITED WARRANTY

This product is warranted against failure due to defects in materials or workmanship for three years from the date of purchase. This warranty does not cover normal wear or damage resulting from misuse or abuse of the product and does not apply to the light heads. This warranty extends only to the original purchaser of this product. Warranty service is available for the warranty period if the product is returned postage prepaid. Do not alter the product in any way. Warranty service is available only if the product is returned postage prepaid. This warranty is void if the product is returned with any modifications, additions, or alterations. This warranty is non-transferable and applies only to the original owner. Proof of purchase is required for warranty service.

SAFETY AND PRECAUTIONS

1. Suitable for indoor and outdoor wet locations.
2. Do NOT touch directly LED light source.
3. The LED modules used in the fixture are not serviceable.
4. Suitable for use in operating environments ranging between -13° to 122°F (-25° to 50° C)
5. Do NOT use with extension cords near water or wherever water may accumulate.
6. Do NOT use with extension cords near water or wherever water may accumulate.
7. Do NOT use with extension cords near water or wherever water may accumulate.
8. Do NOT use with extension cords near water or wherever water may accumulate.
9. Do NOT use with extension cords near water or wherever water may accumulate.
10. Do NOT use with extension cords near water or wherever water may accumulate.
11. Do NOT use with extension cords near water or wherever water may accumulate.
12. Do NOT use with extension cords near water or wherever water may accumulate.
13. Do NOT use with extension cords near water or wherever water may accumulate.
14. Do NOT use with extension cords near water or wherever water may accumulate.
15. Do NOT use with extension cords near water or wherever water may accumulate.
16. Do NOT use with extension cords near water or wherever water may accumulate.
17. Do NOT use with extension cords near water or wherever water may accumulate.
18. Do NOT use with extension cords near water or wherever water may accumulate.
19. Do NOT use with extension cords near water or wherever water may accumulate.
20. Do NOT use with extension cords near water or wherever water may accumulate.

ADDITIONAL WARNINGS

This product has a polarized plug (one contact blade is wider than the other) as a feature to reduce the risk of electric shock. The plug is fashioned to fit in a polarized outlet only one way. If the plug does not fit, reverse the plug. If it still does not fit, contact a qualified electrician to install a proper outlet. DO NOT ALTER THE PLUG IN ANY WAY.

INSTALLATION

1. The light and fixture should be turned off at dusk and off at dawn (Fig. 10).
2. Each connection is made up of a connector (Fig. 3) and quick connector (Fig. 4). The quick connectors and connectors are only designed to connect one way. (Fig. 5)
3. Check all connections, make sure they are all on tight to prevent water from entering the connections (Fig. 6). (Fig. 7)
4. Attach the (2) 12W Dusk to Dawn Transformer (Fig. 8). Fully insert the quick connectors into the power adapters (Fig. 9). Tighten the collar ring firmly to keep water out (Fig. 10).
5. Remove the thumbscrew from the fixture (Fig. 10). Lift up the 4 ft. side of the ground stake with the ratchet tool (Fig. 11) against the fixture lock on the back of the light head (Fig. 10). Folder both pieces together with the thumbscrew (Fig. 11). Push stakes into ground and aim light.
6. The light heads can be positioned from horizontal to straight up (Fig. 1). Loosen the thumbscrew to reposition the light head to the proper angle.
7. An end cap must be securely attached at the end of the main cord (Fig. 12). The dusk to dawn transformer is ready to be plugged in.

INSTALLING ADDITIONAL UNITS

1. Up to (10) 100 Lumen Spotlight (12 Watts total) can be hooked up to transformer (The Transformer cannot exceed 12W). An end cap must be securely attached at the end of the cord before plugging in.
