

Henry Tropi-Cool 100% Silicone Roof Coating can be used on many different commercial or residential roof substrates to reflect the sun's heat and UV rays, as well as to help seal and protect the surface. It works well on low slope roofs and is suitable for pitched roofs.

Provides long-lasting waterproof seal.

Henry
#1 CHOICE OF PROFESSIONALS®

A system approach for roof restoration and weatherproofing

From the #1 Choice of Professionals®

Roof renewal and restoration for commercial, residential, and mobile home roofs, Henry® Tropi-Cool® 100% Silicone Roof Coating helps extend the life of many aged roofs.

Long-lasting roof protection
in as little as one coat!

Ideal for low slope and pitched roofs.

Henry Tropi-Cool 100% Silicone Roof Coating
is designed for use on many existing roofs:

- Aged asphalt roofs – Built-Up Roofing (BUR) and Modified Bitumen (MB) roofs
- Aged single-ply and rubber roofs – TPO, EPDM, PVC, and Hypalon® roofs
- Spray polyurethane foam (SPF) roofs
- Metal roofs
- Concrete roofs
- Recoating previously coated roofs
- RV, trailer, and mobile home roofs
