# The advantages of the product

## The product is a waterproof power scrubber

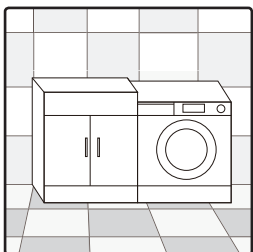

The product is a waterproof Power Scrubber, generally used in water places frequently, so we get BATHWELL of Waterproof IPx7 functional testing certification, it also be safe to use in the water.

Foldable design, you can freely adjust the angle, it is more convenient to use.

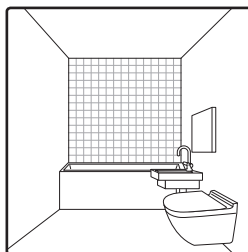

According to the different cleaning areas, you can easily adjust the handle and rotate freely, more convenient to operate.

※Waterproof IPx7: It can continue to soak in the sink which is around 1 meter. The host can achieve waterproof level that is impervious to water.

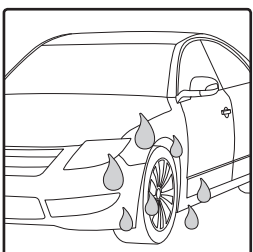

## The design of the replaceable brush, easily clean each corner of the room.

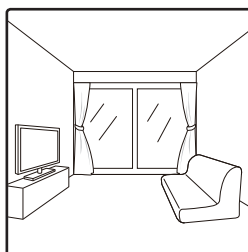

The brush is suitable for cleaning the bathroom, balcony, laundry room, the uneven tile surface and other water-damaged places.

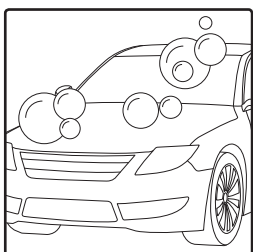

The ground or wash gargle, bathtub, ceramic and other smooth surface, use the cotton velvet brush which stick on the Velcro then cleaning.

Long brush is for cleaning the toilet, car tires and other sunken place.

The scouring pad which sticks on the Velcro is suitable for the cleaning wood floor, etc.

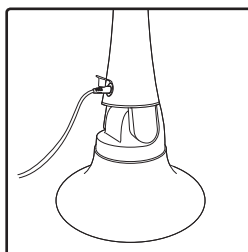

Sponge brush which sticks on the Velcro, can clean it after foaming, is especially useful for cleaning cars.

## The use of reducer has a super-rotating force, show the strong power.

In order to remove the stubborn stains that required for the super-strong rotating force and the strong power, we design this reducer about 170RPM which has successfully applied to small products.

## Can plug-in when in use, plug and play.

Without the power, it will stop working during the cleaning, you can plug while charging.
