

Easy to Setup. Easier to Return.

Each Retreev product has an NFC chip, QR code, a Unique ID, or a combination of the three.
Making it simple for anyone to return your lost belongings using their smartphone.

How to Set Up Retreev

Step 1

Tap or Scan

Activate your tag by tapping the tag, scanning the QR code or entering the unique ID found on the tag into retreev.com/setup.

Step 2

Activate

Complete your personal details to be contactable when your item is found.
This only takes 1 minute.

Step 3

Attach

Attach the tag to your bag or pet tag to your pet's collar, stick the sticker on your item, and you're good to go.

How to Return a Lost Item

Step 1

Tap or Scan

Tap, scan or enter the unique ID of the Retreev product into retreev.com/return using your smartphone.

Step 2

Inform

Fill in the important recovery details so that the owner can contact you.

Step 3

Return

The owner can now easily contact you and make arrangements to Retreev their item.
