WARRANTY HOLDER CLASSIFICATIONS:

Residential Warranty Holders: If the Product is installed in (i) a new residential home and the first occupant owns the home or (ii) an existing owner-occupied residential home, and in each case, at the time of installation such owner is also responsible for Product replacement, then that owner is a Residential Warranty Holder. For example, assume the Product is installed in a condominium unit (a "home") in a multi-resident building. If the first occupant of the condominium unit is the first owner of that unit and is also responsible for Product replacement, then that owner is a Residential Warranty Holder; however, if the owner is not the first occupant or if someone else other than the owner (for example, the condominium association) is responsible for Product replacement, then the owner is not a Residential Warranty Holder.

Multi-resident Warranty Holders: If the Product is installed under conditions in which no one qualifies as a Residential Warranty Holder as described above, then the warranty holder is the owner of the home or building in which the Product has been installed at the time of installation (and its builder and contractor). That owner is classified as a Multi-Resident Warranty Holder. For example, this includes owners of multi-resident premises in which the occupant is not responsible (other than through periodic fees/other assessments) for Product replacement whether or not the occupant owns the residential home unit in the premises (including by example, certain condominiums, townhomes, duplexes, apartments, cooperatives).

8. Damage caused by not properly finishing the Product or not finishing it in a timely manner (45 days from date of Masonite's original shipment unless prefinished by Masonite).

10. Masonite does not warrant hardware such as locksets or other hardware. A separate written warranty may be provided from the manufacturer and included in the materials that accompany a Pre-Hung Door Unit.

11. The finish on any Masonite supplied hardware is not warranted and is purchased "as is".

12. Variations in color or texture in any primed or pre-finished Product coating.

13. Normal wear and tear or natural weathering of surfaces including weather-strip and sweep.

14. Damage or defect arising from or related to improper field finishing of all sides, front, back and all edges of the Product.

15. Slight expansion or contraction of door panels, jams and slabs due to varying environmental conditions.

16. Structural integrity issues caused by improper installation of hardware or improper machining of the Product.

17. Damage or poor Product performance resulting from the installation of Product in a condition that exceeds Product design standards or certified specs and/or does not conform to applicable building standards.

18. Any warp, size, or squareness within the permitted tolerances including those listed below.

19. Damage resulting from or related to a Product being installed behind a non-vented storm door or excessive heat due to being finished a dark color.

20. Bubbles, lines, slight surfaced imperfections and slight discoloration are normal characteristics of fine hand-crafted glass and are not warranted.

21. Acts of third parties.

22. Non-uniformed fade or, color change after installation.

PERMITTED DOOR TOLERANCES

1. **Size:** Width, height and Thickness +/- 1/16" of a door
2. **Squareness:** +/- 1/8" measured corner to corner across the door's diagonal plane.
3. **Warp:** No more than 1/4" of warp as measured across the plane of the door in a section no greater than 3-6 x 7-0 in 1-3/4" or 3-0 x 7-0 in a 1-3/8" door. For doors that are larger than 3-6 x 7-0 but no greater than 8-0 in height and 4-0 in width, the warp shall not exceed 1/4" in a 3' by 7' section.

Masonite may defer action on any claims for warping for a period of up to 12 months from date of the claim to allow the door slab to adjust to local humidity and temperature conditions. This often remedies the issue.

INSTALLATION INSTRUCTIONS:

Refer to the installation instructions that are provided with the Product or that are found on the Masonite website.

Depending on the region, some areas require additional fasteners to install the unit. Please check with local building codes for additional installation information.

Installation of a Product within 5 miles of any body of salt water will reduce the Warranty period (Lifetime or Warranties of 15 years or greater will be limited to 10 years, other warranties will be reduced by 50%).

FINISHING INSTRUCTIONS

(not applicable to Masonite's pre-finished doors):

Refer to the installation instructions and finishing instructions on the Masonite website.

Also, follow the coating manufacturer's instructions carefully.

Primer does not function as a sealer or moisture barrier and is not a coating.

Masonite recommends cleaning the Product a few times a year using mild detergent and warm water. Repainting or re-applying topcoat every 1 to 7 years will be required depending upon the weather exposure.

STORAGE, CARE & HANDLING INSTRUCTIONS:

The instructions below are highlights of certain storage, care and handling instructions. Other instructions may accompany the Product or be posted on Masonite's website and should also be followed:

1. When Products are received they must be inspected immediately for quality, including correct size, machining, and finish (if factory finished).
2. Unfinished doors and frames must be finished within 45 days of original purchase with a national brand exterior grade paint or stain.
3. Prior to installation, the door/unit shall be stored so that it is not exposed to the elements or allowed to sit in a damp area or standing water.
4. When storing door slabs, keep the doors stacked horizontally and fully supported on a level surface, do not lean the doors vertically against a wall or other structure. When stacking doors, keep the top door covered at all times with a cover sheet, plywood or cardboard.
5. Masonite ships certain Products with spacers. In order to prevent Product distortion, it is required that the packaging spacers remain until the Product is removed to be hung.
6. Pre-hung door units should be stored vertically and secured to avoid accidentally falling over.
