## Privacy Gates

Thank you for choosing the Barrette Outdoor Living Fence Gate. Please read the instructions completely before assembling your gate. Retain manual and your dated sales slip for future reference and warranty claims.

**Before You Begin...**

Check your local zoning laws.

- Local zoning laws and Home Owners Associations may regulate the location, style and height of your fence or even require a permit signoff beforehand.

Contact your local utilities companies.

- You must have the utility companies clearly mark your property for electrical, gas or water lines to avoid puncturing any unseen underground utilities.

Pay to mark your property line.

- Being proactive will save you time and money from any disputes from neighbors.

Gate posts require an internal support system for weight-bearing purposes and therefore wooden inserts or a post stiffener is required.

**Material Checklist:**

- Phillips Head Screwdriver
- Tape Measure
- Safety Glasses
- Drill
- Vinyl Cement
- #2 Square Drive Bit
- Line Level
- Gate Hardware (Hinges/Latch)

**ATTENTION: Before you assemble the gate:**

**PLEASE TAKE A COMPLETE INVENTORY OF ALL PARTS USING THE KIT CONTENTS.**

**DO NOT ATTEMPT TO ASSEMBLE THE GATE IF PARTS ARE MISSING OR DAMAGED.**

**Please do not return the product to the store, for assistance or replacement parts call:**

**1-800-336-2383**

Post Spacing will be determined by gate width and hardware.

**Full Privacy Gates**

# Full Privacy Gates

NOTE: For Style A rails use a rail plug.  
For Style B rails use an internal post top.

## For gates with Style A rails

Figure 1

- Assemble the center portion by inserting the vertical boards into the bottom of the horizontal rail. For Style A gates, there are two 4-1/2 in. boards which should be placed on the outer edges of the gate. Add left and right Side Channels on either side. Snap the top horizontal rail on the vertical uprights.
- For Style A gates, snip off excess material on the upright (Figure 1). Install the assembled center portion into the gate uprights.
- Next, adhere the internal post top (Style B) or decorative rail plug (Style A) with glue. (Figure 2)
- Make sure the gate is square (Figure 3) and mark screw position in each of four corners. Make sure the screw placement allows for connection of the rail to the upright. (Figure 4)
- For Style A gates, secure the rails to the uprights using #2 square drive bit with #10 x 3/4 in. screws (40). For Style B gates, secure the rails to the uprights using #2 square drive bit with supplied screws (20). Repeat in each of the four corners on the front side of the gate and for Style A on the opposite side of the gate (eight corners).
- Mount the gate according to the hinge instructions.

NOTE: Not all fences, gates, or gate hardware are pool code approved.

# Semi-Privacy Gates

Make sure the rails are in far enough for the screws to make connection to the rail (3-3/8" approximately) inside the upright

## Semi-Privacy Panel Screw Locations

## Semi-Privacy Gates

- 1.) Assemble the bottom portion of the gate by inserting the boards into the bottom of the horizontal rail. Add left and right side channels on either side and insert the bottom rail into the gate uprights.

- 2.) For the lattice top, sandwich the mid rail, lattice, u-channel and top rail together. Insert into the uprights.

- 3.) For the open picket top, insert both mid and top rail into the gate uprights and insert pickets.

- 4.) For the closed picket top, add mid rail, insert pickets and add top rail into the gate uprights.

- 5.) Adhere the internal post top with glue.

- 6.) Make sure the gate is square and mark screw position, 2 screws on the top rail (left and right corners) and 4 screws in the mid rail and bottom rail (left and right sides) to the front side of the gate.

- 7.) Mount the gate according to the hinge instructions.
