

1. Specification

This multifunctional wall-mounted storage unit features a solid wood shelf, an open front wire basket and three-sided powder-coated metal guardrails for compact bathroom organization. The wire basket measures 15.7" × 6" × 5.5", perfect for storing toilet paper rolls and wipes with convenient one-hand access. The rust-resistant metal guardrails ensure stable support and keep daily bath supplies neatly contained and visible. Suitable for installation above toilet tanks or bathroom vanities, it adapts to various space layouts. Boasting a smooth wipe-clean finish and durable construction, it delivers long-term usability and matches most home decor styles, ideal for small spaces and rental houses.

2. Replacement Part List

The package includes one solid wood storage shelf, one metal wire basket, metal guardrails, complete mounting hardware and detailed installation instructions. Replace deformed metal frames, scratched wooden boards or damaged mounting accessories in time to maintain stable structure and tidy storage.

3. Instructions / Assembly & Installation Guide

1. Read the included instruction guide and prepare for wall mounting.
2. Assemble the wood shelf, wire basket and metal guardrails completely.
3. Fix the whole unit firmly on the target wall position with provided hardware.
4. Confirm overall stability to avoid shaking or falling.
5. Place toiletries and decorative items for daily storage use.

4. Use and Care Manual

Usage Instructions

This wall storage system is designed for bathroom space optimization. It effectively organizes toilet paper, skincare products, toothbrush holders and small decorations, clearing countertop clutter while keeping items easy to access.

Care & Maintenance

Wipe the wood and metal surfaces regularly with a soft cloth to keep clean. Avoid long-term water soaking to protect the wood texture. Check mounting tightness periodically to ensure stable wall fixation.

Safety Notes

Install on smooth and solid wall surfaces. Do not place overweight items to prevent deformation or falling. Keep away from sharp objects to avoid surface scratches.
