1250 Vertical Mailboxes

for Postal Delivery

Vertical mailboxes can be used for Postal Delivery when they replace older vertical mailboxes. Over the years, postal regulations have changed and these mailboxes are no longer approved for new construction. As these units are top-loading, they should be protected from the weather.

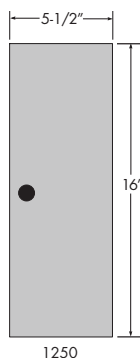

Standard Features

- Top Load
- Recessed- or surface-mounted
- Prepared for USPS installed Master Lock
- Anodized aluminum finish
- 5-pin cylinder cam locks with two keys (1,000 key changes)
- Name and number ID card holders

Door Size

The 1250 vertical series mailbox is pre-configured with one door size.

Lock Option

The 1250 vertical series comes standard with a K30809 lock.

Optional Features

- Private master lock
- Eight architectural powder coat finishes

Color Options

Anodized Aluminum is standard for all vertical mailboxes. Upgrade your installation to one of eight different architectural color options, all in a durable, powder coat finish.

Did you know?

The USPS allows vertical mailboxes for replacement purposes only, and so they should not be considered for any new construction installations as they do not meet the STD-4C (see page 36 for details).

Single Row

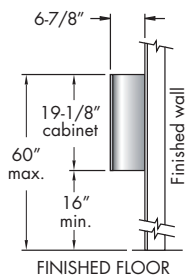

Wall Cut Depth = 6-3/4"
Wall Cut Height = 17-3/4"
Overall Height = 19-1/8"

Double Row

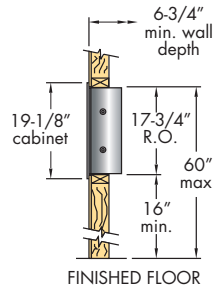

Wall Cut Depth = 6-3/4"
Wall Cut Height = 37"
Overall Height = 39-1/4"

Note: Vertical mailbox installations should always be protected from direct exposure to the weather. Florence Manufacturing is not responsible for damage caused by weather conditions.

DOUBLE ROW FULLY-RECESSED

Surface-Mount Collar

When your mailbox installation location has limited wall depth or walls that are covered in material which makes it difficult to cut a rough opening, the 1250 vertical series has a surface-mount collar option. This also provides a sleek, finished look.
