

## Use and Care Manual

An upholstered swivel accent chair is a stylish and functional addition to any room, providing a comfortable seating option that can easily be adjusted to face different directions. To keep your upholstered swivel accent chair looking and feeling its best, here are some use and care tips:

**Use the chair as intended:** It's important to use the chair as it was designed to be used. Avoid standing on the chair or using it as a ladder, as this can damage the swivel mechanism and upholstery.

**Clean spills promptly:** Accidents happen, and spills are inevitable. However, it's important to clean up spills promptly to prevent them from seeping into the upholstery and causing stains or odors. Use a clean, damp cloth to blot up spills, and avoid rubbing or scrubbing, as this can spread the stain.

**Avoid direct sunlight:** Direct sunlight can cause the fabric on your chair to fade and deteriorate over time. Try to position your chair away from windows or use curtains or blinds to block out sunlight.

**Rotate the chair:** To prevent uneven wear and tear on the upholstery, it's a good idea to rotate the chair occasionally. This will also help to prevent the swivel mechanism from becoming stiff or difficult to turn.

**Vacuum regularly:** Regular vacuuming can help to remove dust and dirt from the upholstery, preventing it from becoming embedded in the fabric. Use a soft brush attachment to avoid damaging the fabric.

By following these tips, you can help to keep your upholstered swivel accent chair looking and feeling its best for years to come.
