

# RUGSAMERICA

## About Us

The tireless dedication to servicing our customers, our exceptionally crafted products, and our ever-evolving designs are the traits that have been the foundation of Rugs America since our inception in 1994. Our principles have over three decades of industry experience covering an array of functions, and employ their knowledge to uphold Rugs America as a leader in design, color, quality and service.

With fashion forward in-house design team and production facilities in several countries. Rugs America consistently achieves order fulfillment rate of over 99%. As our history defines us, our future presents the opportunity to reinvent, rejuvenate and rediscover the beauty our product line.

## Rugs America-Limited Distributor Warranty

We warrant our rugs against manufacturer defect for one year (365 days) from the date of purchase.

We may, on a case by case basis, require photos of the damage before we arrange for return of products to our warehouses. In the case of a return due to manufacturer defect, we will pay the cost of return transport of the defective item.

## Choosing the Right Size

### Choosing the Right Size: Living Room

To choose the right size it is best to have your room measurements and an idea of where you want to place the rug in relation to your furniture and other objects in the room.

### Choosing the Right Size: Dining Room

Most dining rooms require an 8 x 10 sized rug or larger. The rule of thumb is that you want the table and all the chairs to fit on the rug.

### Choosing the Right Size: Bedroom

There are a few options for a bedroom; for an accent look, a size 5 x 8 at the foot of the bed and a pair of runners along both sides of the bed.

## Rug Care & Cleaning

**General Care:** Vacuum regularly. This will remove the soil before it gets grounded into the foundation, becoming difficult to remove. Rotate the rug periodically (once or twice a year) for even wear. **Removing spills and stains:** When spills occur, blot them immediately with a clean white cloth. Allow the cloth to absorb the spill, do not rub the area. A spoon may be also used to pick up any excess, working towards the center of the spill. Most spots can be removed with a solution of one-quart luke-warm water, one teaspoon of mild detergent, applied to the stained area and then blotted. Use a household blow dryer to dry. Brush the pile after the spot is dry. For more difficult spills, contact a professional rug cleaner in your area.
