

HEATER HAT

HOW TO INSTALL: HEATER HAT

This instructional guide will walk you through how to install the Heater Hat onto your Patio Heater.

Tools Needed:

- Power Drill
- Phillips Bit
- Four (4) 1" Self-Tapping Screws (Provided)
- Four (4) 1" Stainless steel Fender Washers (Provided)

Self-Tapping Screws,
& Stainless Steel
Fender Washers

Power Drill and Phillips
Bit

Step 1:

Center the Heater Hat over the hood of the heater.

Step 2:

Insert the self-tapping screw through the washer hole.

Step 3:

Place the screw and washer combo over the predetermined holes on the Heater Hat.

Step 4:

Using the power drill, drill the screws to a snug fit, on the hood of the heater.
