

QUICK ASSEMBLY GUIDE

1 Training Wheels

Push up until leg **CLICKS** into place. Pull down on leg to ensure it is locked securely.

2 Handlebars & Fork

Ensure **Shoulder Clip** is over locking pins before assembling.

With bike on ground, push down on handlebar assembly until it **CLICKS** into place.

Pull up on handlebar to ensure it is locked securely.

3 Folding Pedals

Rotate pedals outward until they **CLICK** into place.

Attempt to rotate pedals back to ensure they are secure.

IMPORTANT: Refer to bicycle owner's manual for complete installation instructions and product warnings. Use this insert along with the bicycle owner's manual.

Training Wheel Instructions

To adjust the training wheels, loosen the training wheel nuts **circled** above. Slide the wheel up or down to the correct position. Re-tighten the training wheel nuts.

To remove training wheels, insert straight-slot screwdriver under the tension clip (as seen above) and pull training wheel leg straight down and out. Repeat for opposite side.

WARNING - Before each ride, make sure both axle nuts are tight. Also make sure both training wheels are the same distance from the ground (1/8in (3.17mm)) and securely attached.

DO NOT RETURN

THIS BICYCLE TO THE PLACE OF PURCHASE

If you should experience a problem with your purchase, in most cases, a BikeAid representative can resolve your problem over the phone. Your feedback is vital to our success and our quality improvement program.
