

Product Features // Designed for Life.

EXPANDABLE

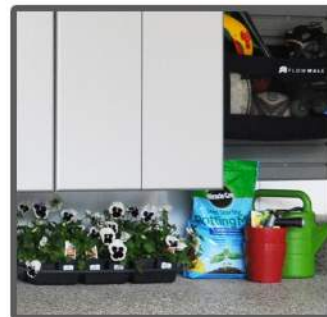

The Flow Wall system is multi-dimensional, and never stuck in its ways. The panel, easy to move hooks and accessories make it simple to grow and expand as your life evolves.

OFF THE FLOOR

With Flow Wall all of your cabinets and accessories are raised off the floor, leaving debris and critters nowhere to hide. No cabinet legs make it simple to clean, not to mention it frees up all of that valuable floor space!

ADAPTABLE

Our patented spring-clip design makes it easy to move and remove our accessories, so Flow Wall is adaptable to any lifestyle. Use our accessories inside of our backless cabinets for the ultimate customization. As your life changes and new hobbies arise your garage will always be able to accommodate them.

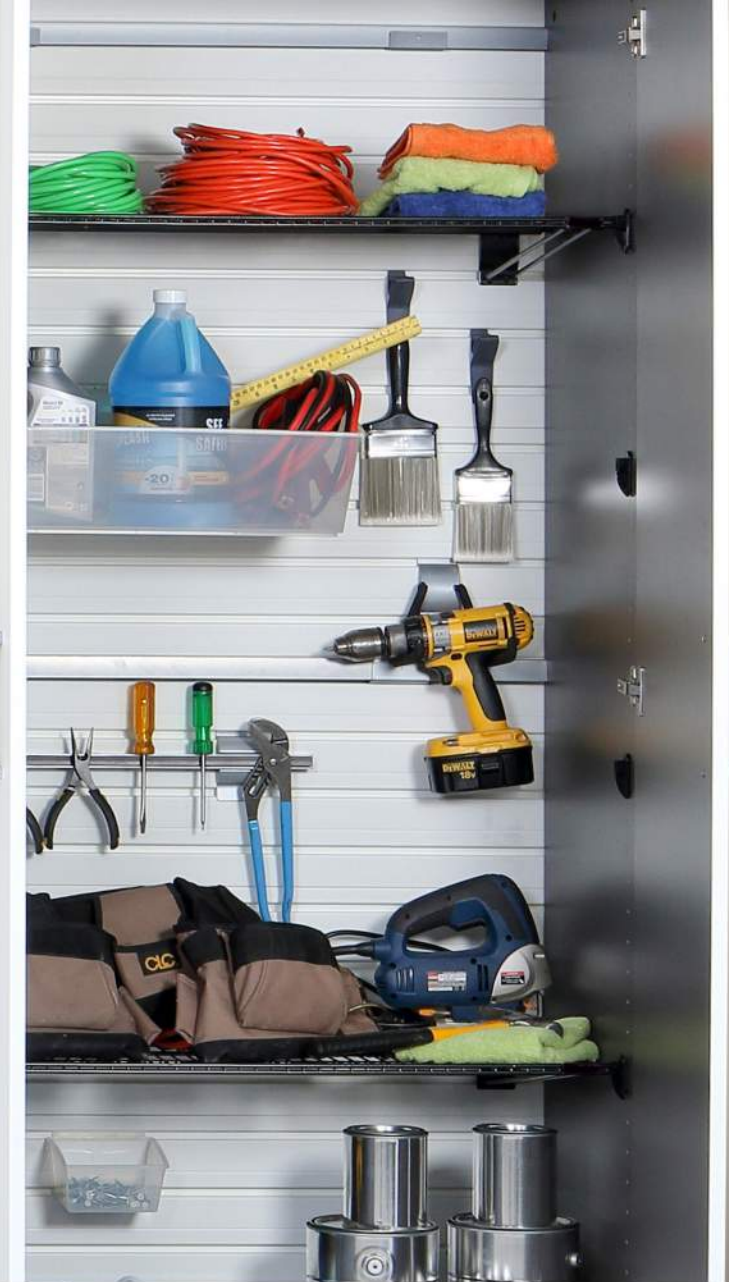

DURABLE

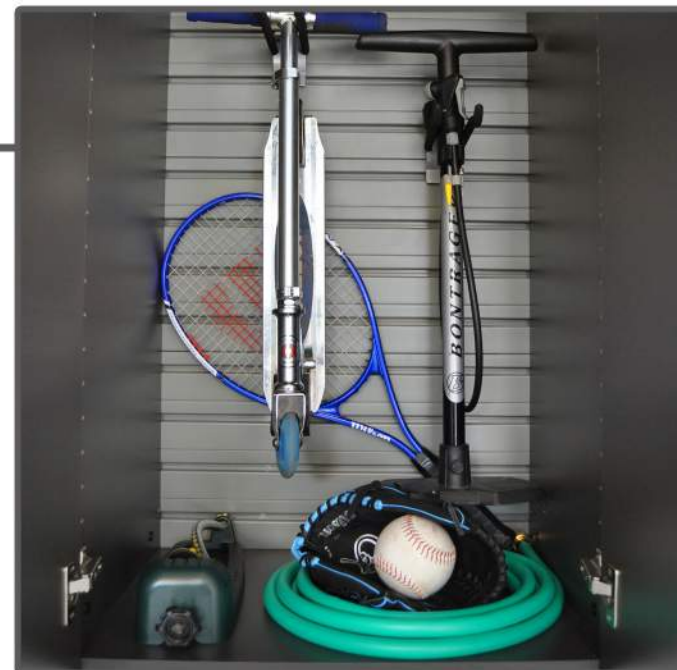

Flow Wall panel, the foundation of the system, is constructed of an extremely strong high density polymer, and is among the strongest slatwall panel in the market. Hooks and shelves are constructed of a high tensile steel, with 13 gauge steel base plates, and covered in a rubber non-slip coating.

VERSATILE

Fully adjustable cabinet shelves make it easy to accommodate all of your gear and equipment. Our Jumbo Cabinet Shelves are a high tensile steel, so you can load them up or simply take them out to fit your needs. With this kind of versatility organizing is effortless.

STYLISH

Your garage will be sleek with our certified “Class A” interior finish panels, stylish cabinetry and powder coated hooks and accessories. Flow Wall is built with strong and durable materials, with a modern and sophisticated design. Flow Wall looks as great as it functions.
