

This comprehensive care guide for granite composite sinks is designed to help you maintain its beauty and durability while ensuring a pristine appearance for years to come.

General Care:

- Clean the sink daily using a sponge or a soft cloth with warm water and dish soap.
- Thoroughly rinse the sink. Do not leave food or cleaning agents on the sink surface.
- Gently dry the sink with a soft microfiber cloth after use.

Surface Protection:

- Polish the sink as needed and after cleaning with a microfiber cloth and mineral oil or granite sink polish.

Water Spots & Limescale:

- Allow a 50/50 water-vinegar solution to soak on the sink surface for 15-30 minutes. [Or instead use a Bar Keepers Friend or CLR and follow the instructions on the product.]
- Use a 3M scrub pad and scrub in small, circular motions.
- Rinse and dry the sink after cleaning.
- Apply a coat of mineral oil or granite sink polish.

Deep Cleaning & Stains:

- Once every other week use a cleanser, such as Bar Keepers Friend Cleanser, and scrub the sink bowl.
- Thoroughly rinse the sink.
- Gently dry the sink with a soft microfiber cloth after.
- Apply a coat of mineral oil or granite sink polish.

Scuff Marks:

- Use a Mr. Clean Magic eraser and follow the instructions on the product.
- Rinse and dry the sink after cleaning.

Scratches:

- Rinse the sink.
- Wet sand the scratched area using a medium grit sandpaper (80-100) and then a fine grit sandpaper (200-400).
- Rinse the sink again when done.
- Apply a coat of mineral oil or granite polish with a soft cloth.

✓ DO's

Allow hot pans to cool before placing them in the sink.

Always run cold water when pouring boiling water into the sink.

Always rinse and dry the sink after use.

✗ DON'Ts

Never use Acetone or cleaning agents containing bleach, chlorine or ammonia.

Never use abrasive cleaning products such as steel wool or scouring pads.

Never leave water, food or cleaners sitting in the bowl for extended periods of time.
