

CHAMBERLAIN.

POWERED BY myQ.

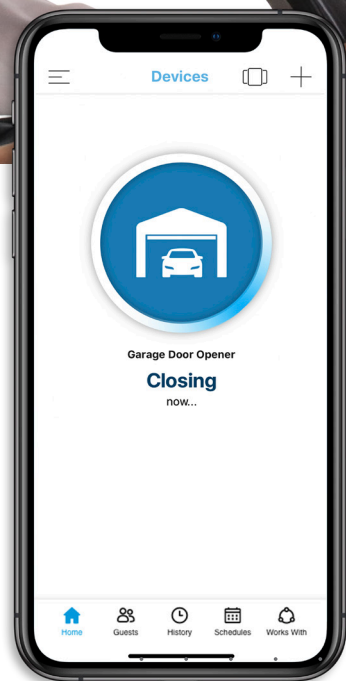

Ultra Quiet WiFi® Garage Opener with Battery Backup

MODEL B4613T

For the Smartest Garage

The Chamberlain Smart Garage Opener is an intuitive device that will change the way you see your garage. Powered by myQ technology – the Chamberlain B4613T features a powerful battery backup that keeps you and your family safe in case of the power outage. With full charge and normal use, this garage door opener will support 3 days of standby power. Never get locked out of your garage again.

Control your garage door anytime, anywhere with the myQ app.

Download the FREE myQ® App

Know

What's happening.

Chamberlain Openers powered by myQ reliably solve everyday access needs and empower homeowners with the knowledge to do more and the control to make it happen.

Control

Anytime, from anywhere.

Check the status of, open and close your garage door remotely with the myQ app. Never wonder if your garage door was left open again!

Share

Grant guest access.

Add up-to 2 family members as Co-Owners to your myQ account. Grant guest access to friends, babysitters, repair people and even the dog walker!

Secure

From anywhere.

Protect what matters most to you with a reliable and intuitive garage door opener. Built to last, your family and prized possessions will be safe and secure for years to come.
