Outdoor Fixture Exclusions:

Finishes for fixtures installed outdoors are subject to change due to prolonged exposure to sunlight, pollutants, and other environmental conditions. Thus, any claim for fading, discoloration, or patina of a finish on an outdoor fixture are not applicable to the above warranty.

The environment within 25 miles of a sea coast can be extremely corrosive. Even with the appropriate maintenance, products installed in this environment will typically deteriorate more than products installed in a less severe environment. Thus, any claim for finish failures or for corrosion of other components due to coastal environment conditions are not applicable to the above warranty.
