

Resolve Carpet Steam Cleaner Use and Care

Usage

HOW TO USE

Vacuum thoroughly to remove loose dirt.

Shake bottle well.

Test a hidden section of carpet for colorfastness.

For home owned and rental machines, recommended use is 2.3 oz of Resolve[®] Carpet Steam Cleaner Solution per gallon of hot tap water. Note: the water chamber in many leading machines holds one gallon of water.

Deep clean carpet and upholstery following machine user's guide.

Allow carpet to dry thoroughly before using area.

Resolve[®] Carpet Steam Cleaner Solution was tested for machine safety in leading current full size upright and canister steam machine cleaner models and hand-held machines. Follow all directions, we're not responsible for damages from misuse. Note that certain stains may cause permanent discoloration even after cleaning. Do not mix with bleach or use in conjunction with other household products.
