

## **USE and CARE GUIDE**

### **Ceramic & Porcelain Tile**

Ceramic & Porcelain tile is one of the most durable and Low-maintenance to remain beauty for your walls, floors, countertops, etc. Just wipe regularly with a clean damp cloth or mop. A non-abrasive, neutral cleaner can be used. Do not use acid or any abrasive and alkaline cleaners.

### **Glass Mosaic and Tile**

Glass Mosaic is durable and easy maintenance, wiping the surface with a damp cloth or sponge with warm water. A pH-neutral cleaner can be used. Use unsanded grout for all glass mosaics and tiles. Do not use acid or any abrasive and alkaline cleaners.

### **Natural Stone Mosaic Tile**

Stone & Marble Mosaic is easy maintenance, wiping the surface with a damp cloth or sponge with warm water. Sealing all-natural stone tiles is recommended. Do not use acid, any abrasive, alkaline, and contain lemon/vinegar cleaners. Do not let stains sit on the surface for extended periods.
